3 PRIMARY FACTORS AFFECTING A SMILE

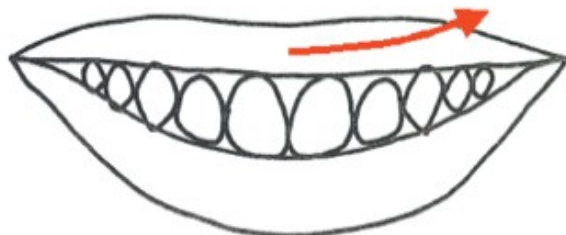

COMPONENTS OF BALANCED SMILE

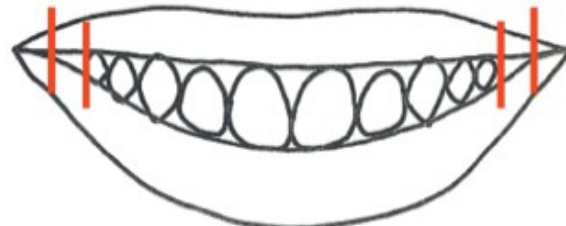

1. Lip line

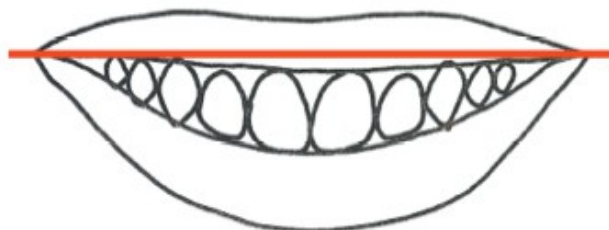

2. Smile arc

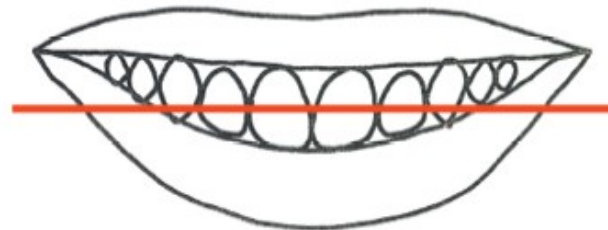

3. Upper lip curvature

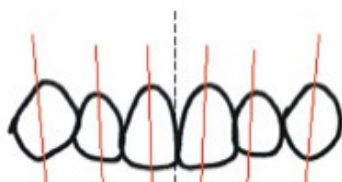

4. Lateral negative space

5. Smile symmetry

6. Occlusal frontal plane

7. Dental components

8. Gingival components

Syneron™ DENTAL LASERS

Laser gum recontouring is a popular option for people who want a pain-free treatment.

Laser technology allows us to reshape the gums in a way that will best bring out a more natural-looking smile
