This year's conference theme is "Advances in Strategic Management Theory and Practice" and we have a very valuable keynote speaker: Jeroen Kraaijenbrink associate professor of strategic entrepreneurship at the University of Twente, Holland. Dr. Kraaijenbrink has published widely in the field of strategic management and is an especially appropriate name for this year's conference that aims to plumb the new depths that strategic management theory and practice have reached.

We hope that you will benefit from the Conference.
