Dental Kraft – dental laboratory

Ideal smile ???

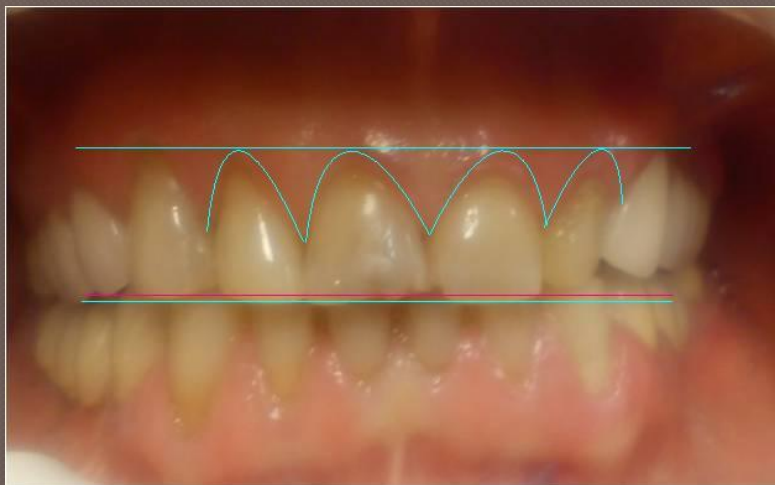

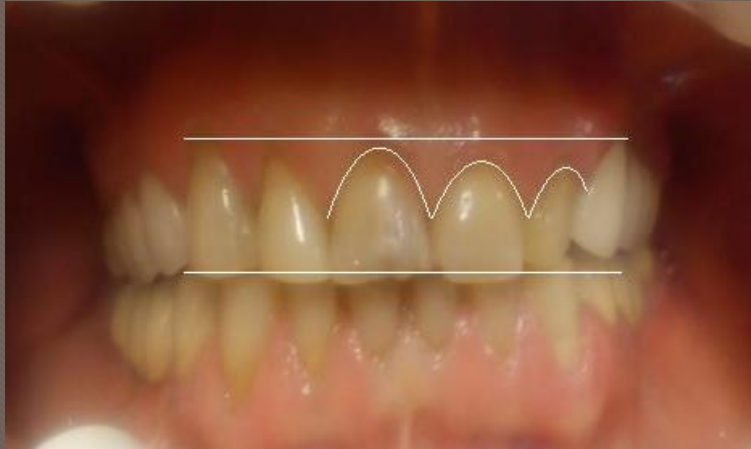

Clinical decision

- Clinical examination
- Studio casts
- RTG
- Photos
- Full lateral occlusion

Computer design

Cauterization

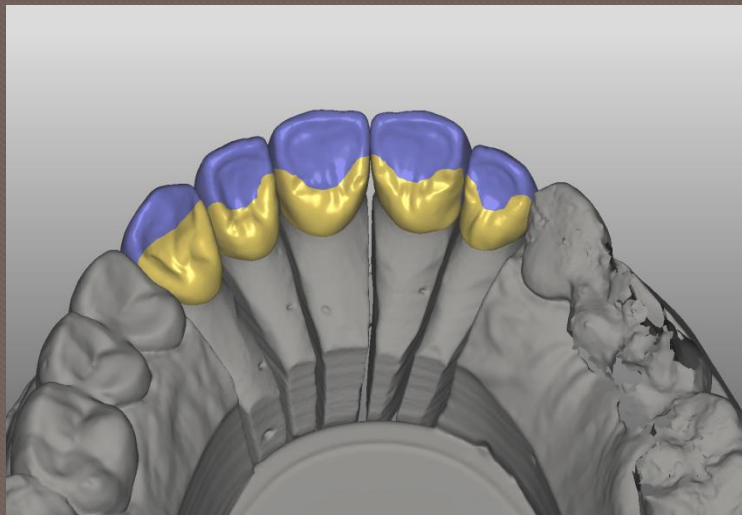

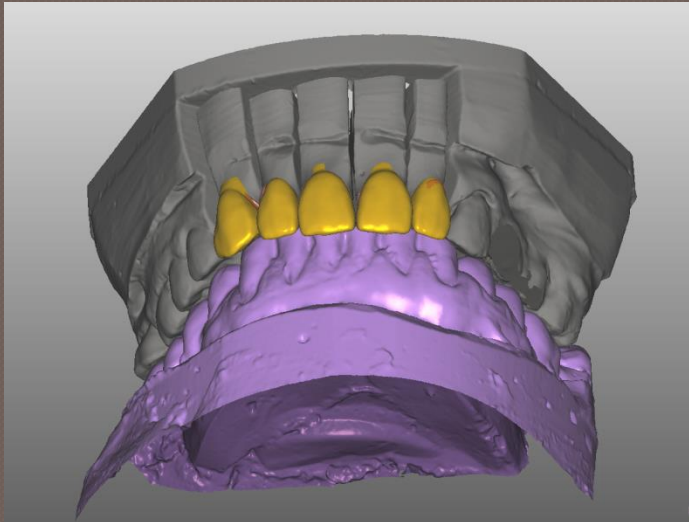

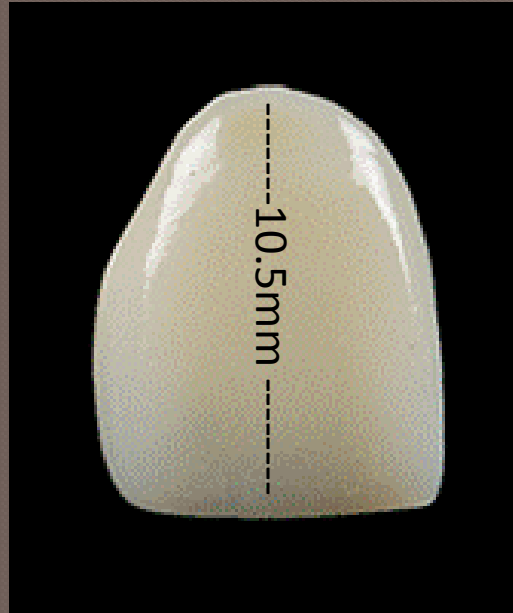

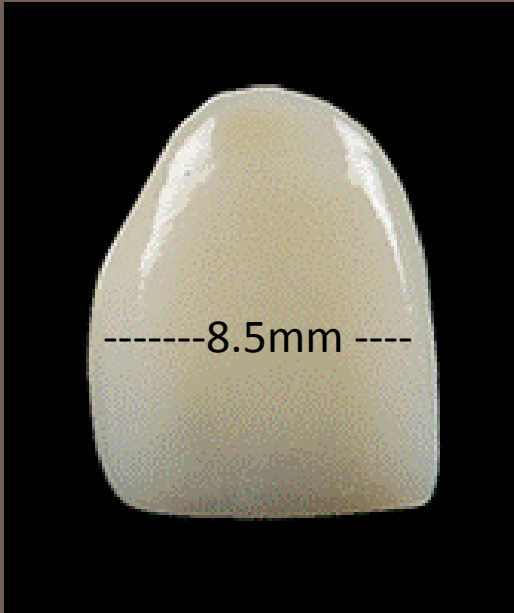

Initial preparation

Frenulotomy

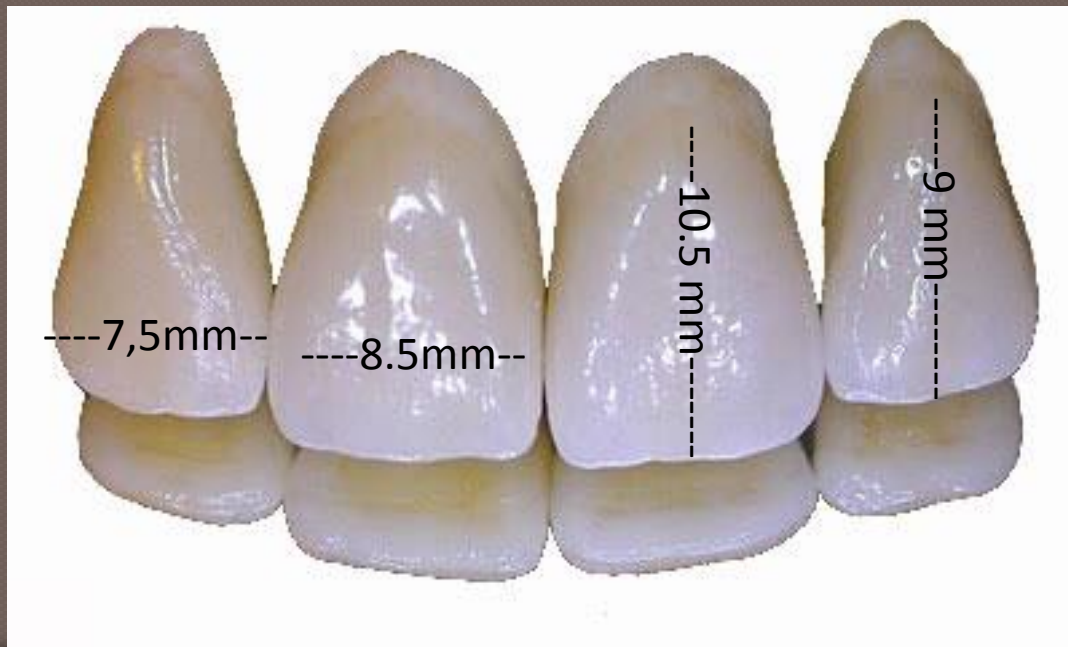

Wax-up modelation

Ideal shape = $\frac{\text{Tooth width}}{\text{Tooth length}}$

$$\frac{8.5 \text{ mm}}{10.5 \text{ mm}} = 0.80$$

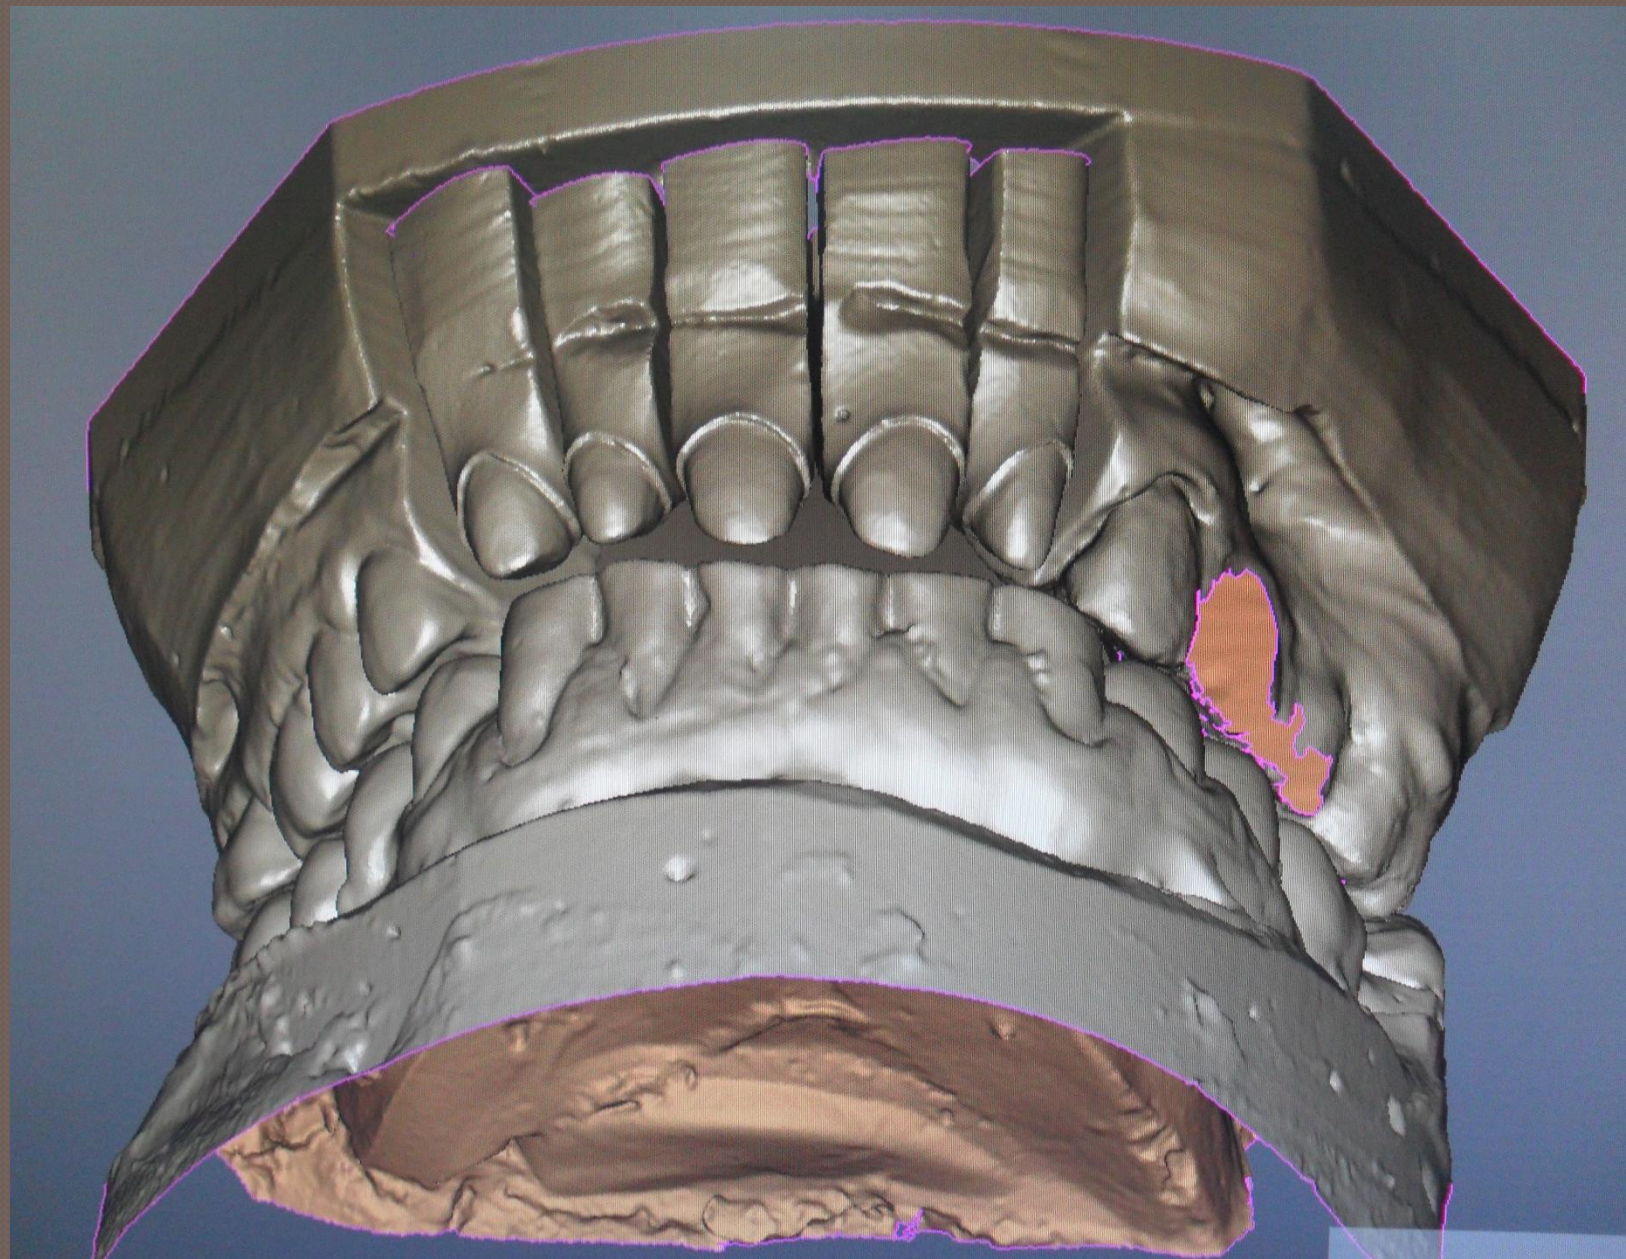

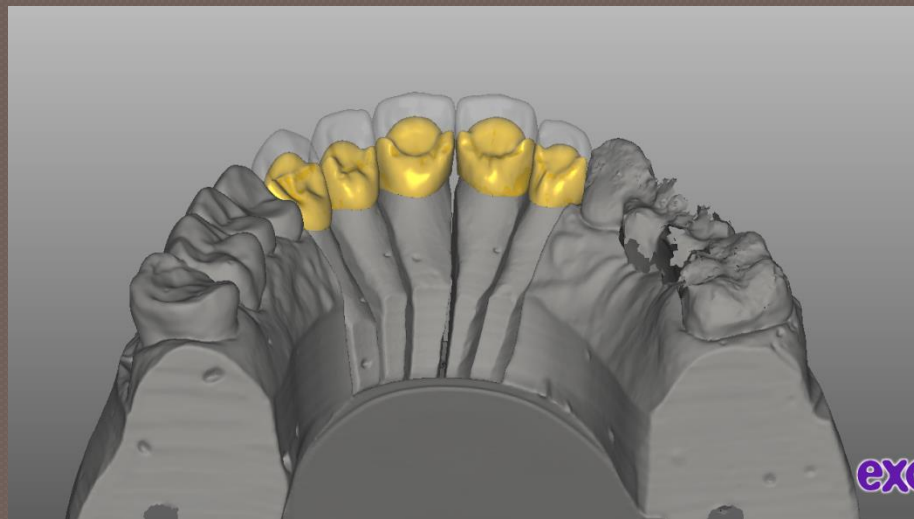

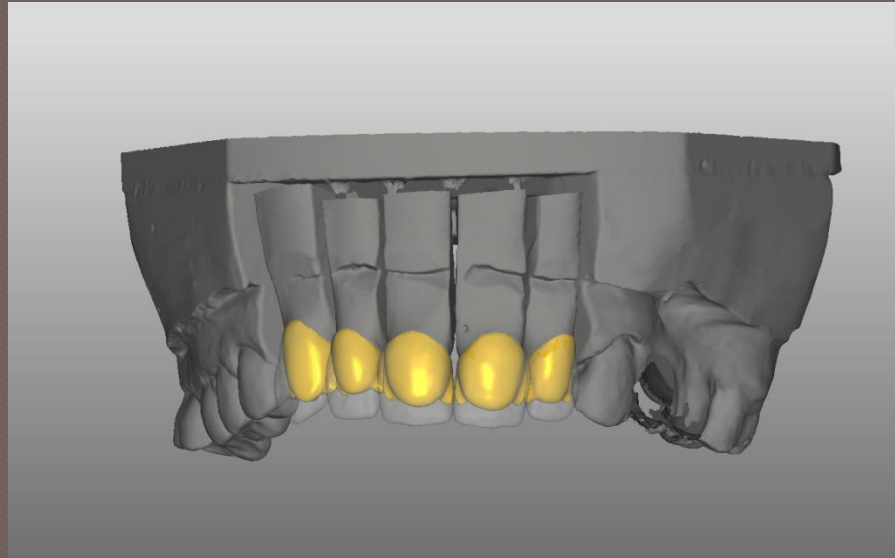

$$\frac{7.5 \text{ mm}}{9 \text{ mm}} = 0.83$$

Ideal shape
0.75 ~ 0.85

Temporary crowns / bridges

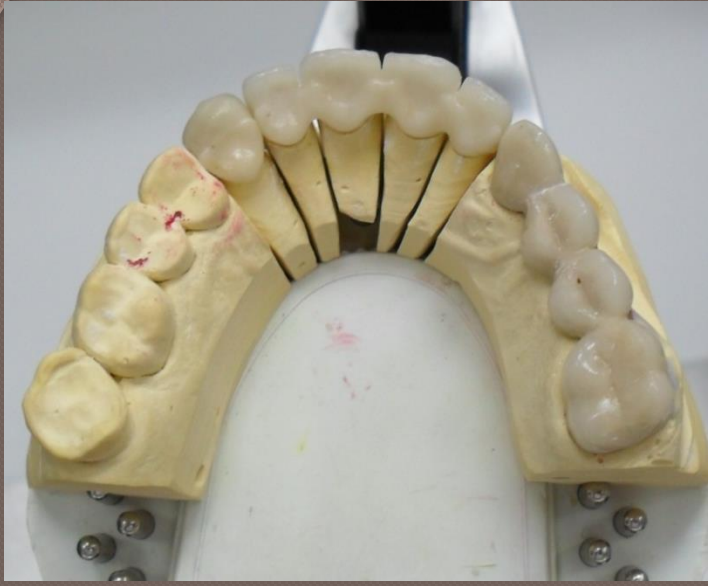

CAD / CAM milling machine
