

POWER ENGINEERING 2011

2nd INTERNATIONAL SCIENTIFIC CONFERENCE OZE 2011

**RENEWABLE
ENERGY
SOURCES
2011**

VOLUME OF ABSTRACTS

Tatranské Matliare, Slovakia
June 7 – 9, 2011

www.POWER-ENGINEERING.sk

**Volume of Abstracts of the 2nd International Scientific Conference OZE 2011
RENEWABLE ENERGY SOURCES 2011**

Tatranské Matliare, Slovakia, June 07 – 09, 2011

© 2011 Slovak University of Technology in Bratislava

Editors:

Július Cirák, Milan Perný, Miroslava Smitková

All papers in the proceedings have been reviewed.
Responsibility for the language correctness of the papers lies with the authors.

Published by: Slovak University of Technology in Bratislava

Printing: 250

Number of pages: 118

Year of publishing: 2011

First edition

ISBN 978-80-89402-38-0

INTERNATIONAL PROGRAM COMMITTEE

Chairman:

Július Cirák, SK

Members:

Dušan Bakoš, SK
Vladimír Bálež, SK
Vítězslav Benda, CZ
Michele Bologna, IT
Anton Causevski, MK
Peter Dušička, SK
Emil Dvorský, CZ
Ján Gaduš, SK
Janos Hajto, HU
Ľudovít Jelemenský, SK

Florinda Martins, PT
Stanislav Miertuš, IT
Dragan Minovski, MK
Paolo Ruzzini, IT
František Schauer, CZ
Vladimír Šály, SK
Grigorij Šmatkov, UA
Ľubomír Šooš, SK
Jiří Vondrák, CZ
Miroslav Zeman, NL

CONTENS

BIOMASS

Invited lecture 1: Spherical Pelleting Press – Present State of Development Šooš, L., Ondruška, J., Križan, P., Biath, P.	127
Invited lecture 2: Biomass Gasification and Pyrolysis Jelemenský, L., Gašparovič, L.	129
Design and Operation of Biomass Gasification Reactor Gašparovič, L., Sikula, I., Markoš, J., Jelemenský, L.	131
Comparison of the Production Technologies for Second Generation Bio Fuels Hajduček, P.	133
Thermal Degradation of Polysaccharides Ház A., Mikulášik R., Orságová A., Lipková Cs., Šurina I.	135
Design of Experimental Biogas Plant Using a Dry Fermentation Process Kubica, J., Pípa, M., Janíček, F.	137
Increasing of Recyclability of Secondary Fibres Kučerková, L., Botková, M., Letková, E., Letko, M., Vrška, M.	139
Improving the Surface Reduction During Pulping with Anthraquinone Letko, M., Letková, E., Kučerková, L., Vrška, M.	141
Changes of Molecular Weight Distribution of Cellulose and Fiber Length During Pulp Recycling Letková, E., Letko, M., Vrška, M.	143
FTIR Analysis of Changes in Cellulose Crystalline Structure During Recycling of Paper Letková, E., Letko, M., Vrška, M., Botková M.	145
Kraft Liquor – Source of Material and Energy Lipková Cs., Botková M., Orságová A., Mikulášik R., Ház A., Šutý Š., Šurina I.	147
Direct Liquefaction of Cellulose in Subcritical Water Mikulášik R., Ház A., Orságová A., Lipková Cs., Šurina I.	149
Utilization of Energy Crops as an Energy Source Orságová A., Lipková Cs., Ház A., Mikulášik R., Šurina I., Porvaz P., Tóth Š.	151
Project of Experimental Orc Unit For Use of Excess Heat from the Cogeneration Unit Pípa, M., Kubica, J., Janíček, F.	153
Plasma Treatment of Biomass Šmatko L., Jablonský M., Šurina I.	155

GENERAL APPLICATION OF THE RES

Invited lecture: Sustainable Energy

Martins, F. 159

Who Will Obtain Benefits from Smart Grids Implementation – Cost Benefit Analysis

Adamec, M., Starý, O. 161

Power Supply Hybrid Systems for Small Consumers

Georgiev, M., Georgiev, F., Causevski A. 163

Development of Transformers for Energy Units Based on Renewable Energy Resources

Halička, V., Liška, F., Lukáč, J. 165

Energy Storage for Intermittent Renewable Energy Sources

Králík, T. 167

Development of Flywheel Storage Energy Using Active Magnetic Bearings

Magdolen, L., Masaryk, M. 169

Life Cycle Assessment of Renewable Energy Sources: Status and Challenges

Martins, F., Albergaria, J. T., Sousa, S. R., Delerue-Matos, C., Smitková, M. 171

Heating Systems Using RES in Modern Building Construction

Mastný, P., Radil, L., Mastná, Z. 173

Heat Pumps of Laboratory of Renewable Energy Sources

Pípa, M., Kment, A. 175

Cogeneration Units of Laboratory of Renewable Energy Sources

Pípa, M., Kment, A., Janíček, F. 177

A Model Battery for Smaller Energy Storage Systems

Radil, L., Mastný, P. 179

Introduction of the National Centre for Research and Application of Renewable Energy Sources

Smitková, M., Eleschová, Ž., Janíček, F., Minovski, D., Sarac, V. 181

Activities for Students in the Field of Power Engineering

Smitková, M., Eleschová, Ž., Janíček, F. 183

Introduction to the LCA

Smitková, M., Martins, F. 185

Powerflows Management in Hybrid Fuelcell Electric Vehicles

Staňák, V., Bugár, M., Ferencey, V. 187

Potential Usage of Hydrogen Fuel Cells for Applications in Transport Technology

Staňák, V., Bugár, M., Ferencey, V. 189

Energy Storage Systems for Electric Vehicles

Staňák, V., Kandl, M., Ferencey, V., Bugár, M. 191

SOLAR ENERGY

Invited lecture: High Efficiency Solar Cells

Šály, V., Packa, J. 195

Preparation and Properties of Amorphous Silicon Based Thin Film Structures for Photovoltaics

Harmatha, L., Mikolášek, M., Řeháček, V., Kozár, M., Ballo, P., Prušáková, L., Šutta, P., Vincze, A., Matay, L. 197

Modeling and Simulation of Photovoltaic Device in Simulink

Hraško, M., Turček, J. 199

Energy Audits and Monitoring of Photovoltaic Power Plants in Slovakia

Jarás, M., Schnierer, B., Stančík, S. 201

Photovoltaic Power Generation for Off-Grid Family House in Slovakia

Kaločay, R., Tomiš, I. 202

Thermal Imagers Testo for Monitoring and Checking Solar Energy Systems

Kiseľ, D. 204

Electric Behaviour of Silicone Solar Cells with Metal Fingers on Grain Boundaries

Kusko, M., Šály, V., Váry, M. 206

Electrical Properties of Amorphous Nitride-Doped Silicone Carbide and its Application for Photovoltaic

Perný, M., Šály, V., Váry, M., Huran, J. 208

Thermo-Solar Powerplant of Laboratory of Renewable Energy Sources

Pípa, M., Janíček, F. 210

Construction and Characterization of DSSC Based on Blackberry Dye

Sokolský, M., Kaiser, M., Círák, J., Kusko, M. 212

Thermophotovoltaic Application to Cogenerative Production of Energy

Tomiš, I., Janíček, F. 214

Application of Photovoltaic Pannels for Domestic Water Heating

Tomiš, I., Janíček, F. 215

Realtime Photovoltaic Systems Monitoring

Váry, M., Perný, M., Firický, E. 217

Selective Conversion Layers for Solar Absorbers

Zemanová, M., Krivdová P., Blaho, P., Jurišová, J., Chovancová, M., Snida, P. 219

HYDRO AND WIND ENERGY

The Increase of Hydropower Potential Utilization After the Small Hydropower Plant Mošon II Building

Daniš, T., Kovács, B., Vávra, J. 223

Wind Potential for Electricity Production in Macedonia

Georgiev, F., Georgiev, M., Nikolova, S., Causevski, A. 225

Possibilities of Accumulation of Electrical Energy Produced by Wind Power Plant Kovař, P., Daruřa, I., Janiček, F.	227
Model of Wind Power Station Marek, J.	229
Optimal Operation of Conventional Power Plants in Power System with Integrated Wind Power Plants Nikolova, S., Causevski, A.	231
Analysis of the Possible Use of Wind Power Systems in Selected Locations in Poland, Based on a Reliability Analysis Pytel, K.J., Jaracz, K.	233
Structural Analysis of the Plastic Cistern of Small Pumping Hydro Power Plant Stančık, S., Jelenık, O., Fric, R., Paulech, J., Kutiř, V., Murín, J.	235
