The monograph "The category of definiteness in the language pair German and Macedonian" focuses on the contrastive analysis of German and Macedonian language and would be relevant for both German foreign language students (DaF-students), learners of modern German language, teachers, translators of Macedonian and German and multipliers of German language in the Republic of Macedonia. It presents possibilities about the principles of acquiring German as a foreign language, then gives explanations about the language behavior of the students of German language, as well as the opportunity to explore different translation options, thus developing their sensitivity to language issues.

The aim of this research is to help foreign language students of German in Macedonia to get acquainted with the main terminology and basic terms in this field of research and to become independent readers, learners and explorers in this field.
