

## WELCOME

### On behalf of the project coordinators of

## "CREATING SUSTAINABLE TRANSFFER OF KNOWLEDGE FOR BUILDING NOVEL IDEAS FOR CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES"

### Project number **2019-B1\_010**

financed by Western Balkans Alumni Association

The project involves networking of students and scientific researchers from Western Balkan countries for creating dataset base of the latest chemo-metric approaches for environmental pollution/protection and ecological effects as well. Even the environmental pollution is a global problem, the latest research indicate that the Western Balkan countries are significantly affect with the environmental pollution. Furthermore, the Western Balkan countries still deals with the problem of poor population awareness for environmental protection. Therefore, this project idea is to unite knowledge from Western Balkan countries and share with youth from this region, increasing the environmental protection awareness within students. Therefore, the students will have the main role in lunching the environmentally friendly aspects for creating novel chemo-metric models in environmental sciences. The beneficiary effect for the Western Balkan students will be creating long-term valuable and sustainable correlations. The project has regional focus, networking six universities from the Western Balkan countries (students and scientific experts-University professors). Furthermore, this project has a national focus for the students from three state Universities from North Macedonia (students from "Goce Delčev" University in Stip, "Ss Kiril and Methodius" University in Skopje and University in Tetovo). Even the environmental pollution is a global problem, the latest research indicate that the Western Balkan countries are significantly affected with the pollution, pointing strongly on heavy metal industry, uncontrolled xenobiotic introduction in the different parts of the environment, electronic waste disposal etc. Furthermore, the Western Balkan countries still deals with the problem of poor population awareness for environmental protection. Therefore, this project will involve regional and national students and scientific researches in order to provide novel chemo-metric methodology and beneficial environmental protection methods. The project intends to involve three national and five regional universities (WBAA members). Each regional university will participate with one scientific expert (university professor) and two students (WBAA member). Two national universities ("Ss Kiril and Methodius" University in Skopje and State University in Tetovo) will participate with one scientific expert and three students. "Goce Delčev" University will participate with 10 scientific experts and 15 students. Four representatives from Nonmembers institutions (Ministry of education and science, Ministry of environment and physical planning and Academy of science and art of North Macedonia) will be invited as well. Participants from North Macedonia, Albania, Kosovo, Serbia, Bosnia and Hercegovina and Montenegro shall collaborate for the benefit of the whole region for several critical environmental issues. Overall objective: Use of Universities' expertise in creation new valuable, suitable and accurate chemometric models for predicting and measuring the contamination level in different parts of the Environment (air, soil, water, plant food). Creating a regional scale of experience for determining the anomalous parts of the Environment. Proposing new ideas for national and regional strategies for Environmental protection. Promoting new ideas for Inter-university cooperation. Creating sustainable University network for continuous cooperation in the field of Environmental monitoring, pollution and protection (both, for students and researchers).

Assist. Prof. Biljana Balabanova

Kiril Jordanov

# About the Western Balkans Alumni Association (WBAA)

The Western Balkans Alumni Association (WBAA) is a regional network of students and alumni from the Western Balkan region (Albania, Bosnia and Herzegovina, Kosovo\*, North Macedonia, Montenegro, Serbia) who have spent part of their studies in one of Erasmus+ programmed countries. These exchanges were mostly funded by the European Commission. WBAA is neutral, unbiased and nonpartisan in the existing political discourse.

WBAA is supported and funded by the European Commission.

WBAA Mission:

- Advocating modernization and improvement of higher education quality in the region;
- Empowering young people of the Western Balkans on their academic and career development towards successful employment;
- Strengthening regional exchange, collaboration and integration;
- Supporting region's efforts towards European integration;

SCIENTIFIC PROGRAM				
October 28 <sup>th</sup> , 2019 (Monday)				
Time: 12:00-1	<b>Time: 12:00-16:00, Registration for regional participants</b> (Faculty of Agriculture, Campus 2)			
16:00-16:15	Moderator's Introduction speech			
	Presentation of Goce Delčev University to the regional participants			
16:15-16:30	WBAA representative			
16:30-17:30	Introducing Scientific Research Centers of Goce Delčev University			
17:30-17:40	Coffee break			
17:40-18:30	<b>Regional experts meeting</b> Problems and challenges facing each country; Introduction and proposing new and beneficial chemo- metric tools for environmental pollution; Proposing "environmentally friendly tools" for reduction the toxic effect of the pollutants and hazards.	Students/young participants meeting Introduction of regional and national participants; Promoting environmental issues from each country; Generating new proposal ideas; Creating sustainable cooperation's.		
19:00	Welcoming dinner (Hotel Izgrev hall)			
October 29 <sup>th</sup> , 2019 (Tuesday)				
Time: 08:00-09:00, Registration for national participants				
09:00	OPENING CEREMONY (HALL CAMPUS 2)			
09:00-09:05	Moderator's Introduction speech			
09:05-09:10	Rector's speech, prof. Blazo Boev			
09:10-09:15	Project coordinators introduction: Biljana Balabanova / Kiril Jordanov			
09:15-09:20	Representative from Ministry of Education and Science, Republic of North Macedonia			
09:20-09:25	Representative from Academy of Sciences and Arts of the Republic of North Macedonia (Research Center for Environment and Materials)			
09:25-09:30	WBAA representative
