

2nd SCIENTIFIC CONFERENCE

**FOR CRITICAL ENVIRONMENTAL ISSUES OF
THE WESTERN BALKAN COUNTRIES**

BOOK OF ABSTRACTS

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip,
Republic of North Macedonia

Funded by
the European Union

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

**“2nd scientific conference for
CRITICAL ENVIRONMENTAL ISSUES
OF THE WESTERN BALKAN COUNTRIES”**

BOOK OF ABSTRACTS

**October 28th to 30th, 2021, Faculty of Agriculture,
Goce Delčev University, Štip, Republic of North Macedonia**

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

ORGANIZERS:

Goce Delčev University, Faculty of Agriculture, Štip,
Republic of North Macedonia

WBAA-Western Balkan Alumni Association

The conference is organized and financed within the project titled “Extracting Green-COVID effects for generating clean technologies and successful youth transition awareness for the climate change and sustainable development of the Western Balkan countries”, **project number 2021030, financed by Western Balkans Alumni Association.**

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

WELCOME

On behalf of the project coordinators of

“Extracting Green-COVID effects for generating clean technologies and successful youth transition awareness for the climate change and sustainable development of the Western Balkan countries”

Project number 2021030

financed by Western Balkans Alumni Association

The project involves networking of students and scientific researchers from Western Balkan countries for creating dataset base of the latest chemi-metric approaches for environmental pollution/protection and ecological effects as well. Even the environmental pollution is a global problem, the latest research indicate that the Western Balkan countries are significantly affect with the environmental pollution. Furthermore, the Western Balkan countries still deals with the problem of poor population awareness for environmental protection. Therefore, this project idea is to unite knowledge from Western Balkan countries and share with youth from this region, increasing the environmental protection awareness within students. Therefore, the students will have the main role in lunching the environmentally friendly aspects for creating novel chemi-metric models in environmental sciences. The beneficiary effect for the Western Balkan students will be creating long-term valuable and sustainable correlations.

The project has regional focus, networking six universities from the Western Balkan countries (students and scientific experts and professors). Furthermore, this project has a national focus for the students from three state universities from North Macedonia (students from Goce Delčev University in Štip, Ss. Ss. Cyril and Methodius University in Skopje and University in Tetovo and St. Kliment Ohridski University - Bitola). Even the environmental pollution is a global problem, the latest research indicate that the Western Balkan countries are significantly affected with the pollution, pointing strongly on heavy metal industry, uncontrolled xenobiotic introduction in the different parts of the environment, electronic waste disposal etc. Furthermore, the Western Balkan countries still deals with the problem of poor population awareness for environmental protection. Therefore, this project will involve regional and national students and scientific researches in order to provide novel chemi-metric methodology and beneficial environmental protection methods.

The project intends to involve three national and five regional universities (WBAA members). Each regional university will participate with one scientific expert (university professor) and two students (WBAA member). Three national universities (Ss. Cyril and Methodius University in Skopje, State University in Tetovo and St. Kliment Ohridski University - Bitola) will participate with one scientific expert and three students. Goce Delčev University will participate with scientific experts, young researchers and students. Participants from North Macedonia, Albania, Kosovo, Serbia, Bosnia and Hercegovina and Montenegro shall collaborate for the benefit of the whole region for several critical environmental issues.

Overall objective: Use of universities' expertise in creation new valuable, suitable and accurate chemimetric models for predicting and measuring the contamination level in different parts of the environment (air, soil, water, plant food). Creating a regional scale of experience for determining the anomalous parts of the environment. Proposing new ideas for national and regional strategies for environmental protection. Promoting new ideas for Inter-university cooperation. Creating sustainable University network for continuous cooperation in the field of environmental monitoring, pollution and protection (both, for students and researchers).

Assoc. Prof. Biljana Balabanova

Kiril Jordanov

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

About the Western Balkans Alumni Association (WBAA)

The Western Balkans Alumni Association (WBAA) is a regional network of students and alumni from the Western Balkan region (Albania, Bosnia and Herzegovina, Kosovo*, North Macedonia, Montenegro, Serbia) who have spent part of their studies in one of Erasmus+ programmed countries. These exchanges were mostly funded by the European Commission. WBAA is neutral, unbiased and nonpartisan in the existing political discourse.

WBAA is supported and funded by the European Commission.

WBAA Mission:

- Advocating modernization and improvement of higher education quality in the region;
- Empowering young people of the Western Balkans on their academic and career development towards successful employment;
- Strengthening regional exchange, collaboration and integration;
- Supporting region's efforts towards European integration;

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

SCIENTIFIC COMMITTEE MEMBERS

President:

Biljana Balabanova - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

Members:

Panvera Lazo - University of Tirana, Department of Chemistry, Tirana, Albania.

Musaj Pacarizi - University of Pristina, Department of Chemistry, Pristina, Kosovo.

Jovica Vasin - Institute of Field and Vegetable Crops, Laboratory for Soil and Agroecology, Novi Sad, Serbia.

Jordana Ninkov - Institute of Field and Vegetable Crops, Laboratory for Soil and Agroecology, Novi Sad, Serbia.

Radomir Ljupkovich - Department of Chemistry, Faculty of Science and Mathematics, University of Niš, Serbia.

Alen Mujčinović - University of Sarajevo, Faculty of Agricultural and Food Sciences, Sarajevo, Bosna and Hercegovina.

Goran Skataric - University of Montenegro, Podgorica, Montenegro.

Trajče Stafilov - Faculty of Natural Sciences and Mathematics, Institute of Chemistry, Ss. Kiril and Methodius, Skopje, Republic of North Macedonia.

Arianit Reka – State Tetovo University, Tetovo, Republic of North Macedonia.

Katerina Bacheva Andonovska – Research Center for Environment and Materials, Macedonian Academy of Sciences and Arts, Skopje, Republic of North Macedonia.

Valentina Pelivanoska - University St. Climent Ohridski - Bitola, Scientific Tobacco Institute, Prilep, Republic of North Macedonia.

Biljana Jordanoska Shishkoska- University St. Climent Ohridski - Bitola, Scientific Tobacco Institute, Prilep, Republic of North Macedonia.

Ljupčo Mihajlov - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia.

Emilija Arsov - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia.

Violeta Ivanova Petropulos - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia.

Sanja Kostadinovik-Velickovska - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia.

Fidanka Trajkova - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

Biljana Kovacevik - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

Natalija Markova-Ruzdik - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

Liljana Koleva Gudeva - Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia.

Violeta Stefanova - Faculty of Natural and Technical Sciences, Goce Delčev University, Štip, Republic of North Macedonia.

Afrodita Zendelska - Faculty of Natural and Technical Sciences, Goce Delčev University, Štip, Republic of North Macedonia.

Marija Hadzi-Nikolova - Faculty of Natural and Technical Sciences, Goce Delčev University, Štip, Republic of North Macedonia.

ORGANIZING COMMITTEE MEMBERS

Kiril Jordanov, BEc, Team Member of Western Balkans Alumni Association and advisor of public procurement, Štip, Republic of North Macedonia

Sanja Stefanova, MSc, Board Member of Western Balkans Alumni Association and International Relations Officer at Goce Delčev University, Štip, Republic of North Macedonia

Biljana Balabanova, Associate Professor at Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

“2nd Scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

October 28th to 30th, 2021, Faculty of Agriculture, Goce Delčev University, Štip, Republic of North Macedonia

“2nd scientific conference for CRITICAL ENVIRONMENTAL ISSUES OF THE WESTERN BALKAN COUNTRIES”

SCIENTIFIC PROGRAM		
October 28th, 2021 (Thursday)		
Time: 12:00-16:00, Registration for regional participants (Faculty of Agriculture, Campus 2)		
16:00-16:15	Presentation of Goce Delčev University to the regional participants	
16:15-16:30	WBAA representative	
16:30-17:30	Introducing Scientific Research Centers of Goce Delčev University	
17:30-17:40	<i>Coffee break</i>	
17:40-18:30	<p>Regional experts meeting Problems and challenges facing each country; Introduction and proposal of new and beneficial chemi- metric tools for environmental pollution; Proposal of “environmentally friendly tools” for reduction of toxic effect of pollutants and hazards.</p>	<p>Students/young participants meeting Introduction of regional and national participants; Presentation of environmental issues from each country; Generation of new proposal ideas; Creation sustainable cooperations.</p>
19:00	<i>Welcoming dinner (Hotel Izgrev hall)</i>	
October 29th, 2021 (Friday)		
Time: 08:00-09:00, Registration for national participants (Faculty of Agriculture, Campus 2)		
09:00-9:15	OPENING CEREMONY (HALL CAMPUS 2)	
	Moderator's Introduction speech	
	Dean of the Faculty of Agriculture, Prof. Ljupco Mihajlov / Vice dean Assoc. prof. Emilija Arsov	
	Project coordinator introduction: Assoc. prof. Biljana Balabanova WBAA representative/ Kiril Jordanov	
<i>ENVIRONMENTAL POLLUTION: critical issues concerning at national and regional scale</i> - PLENARY LECTURES - <i>Chairwoman Assoc. prof. Biljana Balabanova</i>		
09:15-09:30	<p>Trajče Stafilov Faculty of Natural Sciences and Mathematics, Institute of Chemistry, Ss. Cyril and Methodius , Skopje, Republic of North Macedonia</p>	<p>GEOCHEMISTRY OF MAJOR AND TRACE ELEMENTS IN SOILS OF THE REPUBLIC OF NORTH MACEDONIA</p>
09:30-09:45	<p>Musaj Pacarizi University of Pristina, Department of Chemistry, Pristina, Kosovo</p>	<p>DETERMINATION AND STATISTICAL ANALYSIS OF THE ATMOSPHERIC DEPOSIT OF ELEMENTS IN KOSOVO THROUGH MOSSES AS BIOMONITORS</p>
09:45-10:00	<p>Panvera Lazo University of Tirana, Department of Chemistry, Tirana, Albania</p>	<p>STUDY OF AIR QUALITY BY MOSS BIOMONITORING AND TRACE ELEMENTS CONTENT</p>
High-end Dialogue		
10:00-10:30	<i>Coffee break</i>

Abstract

Vranec is the most important red grape variety in Macedonia, representing about 70 % of red varieties grown in the country. From this grape variety, high quality red wines are produced, with a characteristic and deep purple colour, rich with phenolic compounds. Phenolic compounds such as anthocyanins, flavonoids and tannins are important constituents of red wine contributing to the taste, color, mouthfeel and quality. They are also associated with the health-promoting properties of red wine. The proportion of the different polyphenols in wine depends on grape variety, maturity, temperature of maceration and fermentation and the type of vinification. In this study, total phenols (TP), total anthocyanins (TA) and colour parameters of *Vitis Vinifera* red wines Vranec from vintage 2020, produced in the Republic of N. Macedonia, have been evaluated. The wines have been produced with three winemaking techniques, including classical fermentation, roto process and punch down technique, in order to study and compare the effect of vinification on the phenolic compounds. Total phenols were determined using the Folin-Ciocalteu method and expressed as gallic acid equivalents (GAE, mg/l) [1]. Determination of the total anthocyanins was realized by the method proposed of Di Stefano et al. [2]. The samples were diluted with a solution consisting of 70/30/1 (v/v/v) ethanol/water/HCl (concentrated) and the absorbance was measured at 540 nm. Colour parameters, including color intensity (CI) and hue (H) were determined by direct measurement of the wine absorbance at 420 nm, 520 nm and 620 nm. It was found that the applied vinification technique has an influence of the phenolic content, observing highest content of TP and TA in Vranec wines produced with punch down technique (TP: 1720 mg/l, TA: 254 mg/l) in comparison to Vranec wines produced with a roto technique (TP: 1222 mg/l, TA: 242 mg/l) and classical fermentation (TP: 1198 mg/L, TA: 211 mg/L). It was concluded that the punch down process gave the best results and highest content of total phenols, anthocyanins and colour parameters, in comparison with the other two techniques of vinification.

Keywords: Total phenols, anthocyanins, winemaking, Vranec, spectrophotometry.
