ABOUT FLUTE MEETING AND FESTIVAL

The idea of a Flute Meeting and Festival originated from Prof. Matej Zupan, and was first of all to bring together students and professors of Music Academies from the Region (Serbia, Slovenia, Croatia, Bosnia and Herzegovina, Montenegro and North Macedonia) to present flute music. Every Republic will perform music for flute written by their national composers (from older generations to young students of composition from their respective Music Academies), in different combinations - from flute solo to flute ensembles. The 1st Flute Meeting and Festival took place in Zagreb, Croatia in 2019.

Ce flute

the magic of the flute

"Our brand new invention, protected by Hungarian, American and Japanese patents, works in a brand new acoustic system. Instead of the Böhm flute's flat surface, we use a three-dimensional recessed surface. As a result, each sound will find the optimal reflection surface automatically. We can control each sound from the chromatic scale with the help of the curved surface of the conical hole. This results in each tone being crystal clear from small H to D3."
