

the ADVENTURES of Mr. PI and Ms. BETA

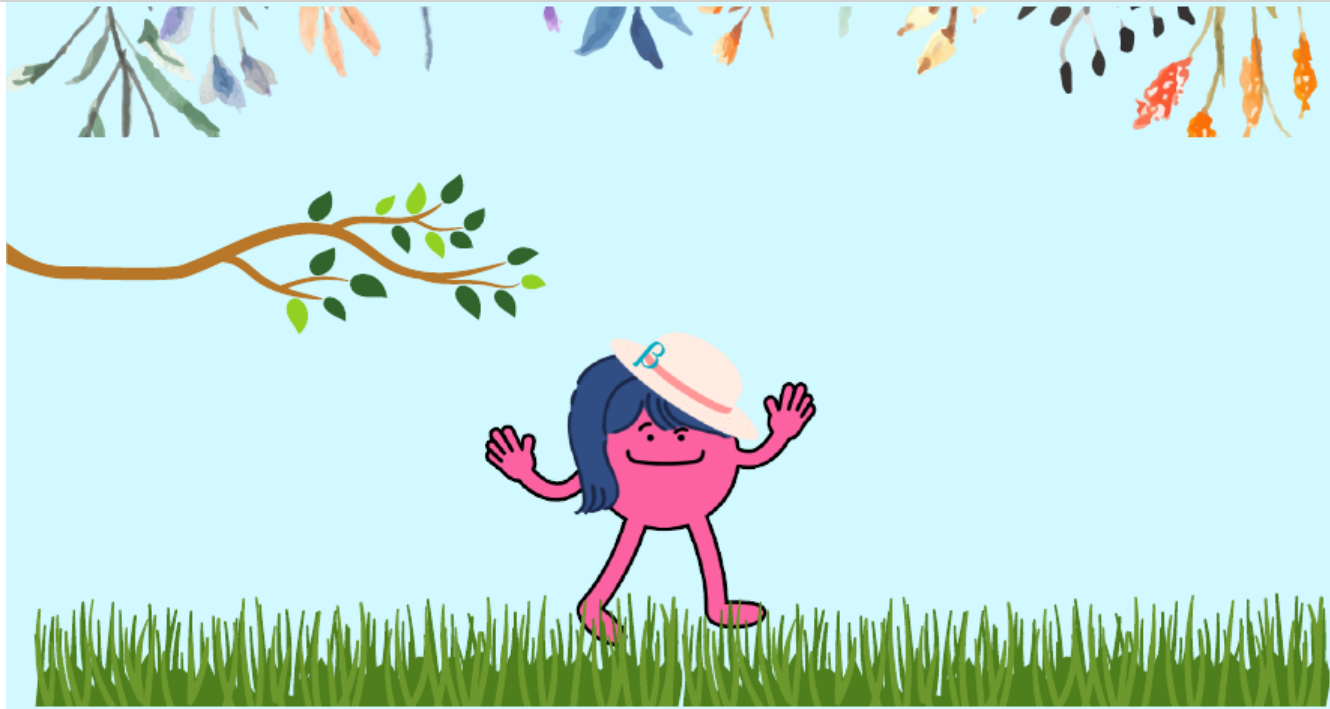

LINGUA MATHEMATICA- 2023

CHAPTER I

Mr. Pi is a very clever boy. He has dark brown hair. His eyes are green like the most beautiful forest you've ever seen. He is not a big boy but his passion for Maths is. He learns about numbers and geometrical shapes every day.

Ms. Beta is his best friend, a very intelligent girl, with dark blue, straight hair and blue eyes. She looks at the world in the most beautiful way. She likes Maths as much as Mr. Pi.

They live in MathLand, a wonderful place in the world. They have fun and learn Maths together.

One day, they find a map that shows the Triangle Palace.
They are curious about the place. They pack their sandwiches and make a plan. To go to the Palace, they have to go through The Magical Circle Forest...

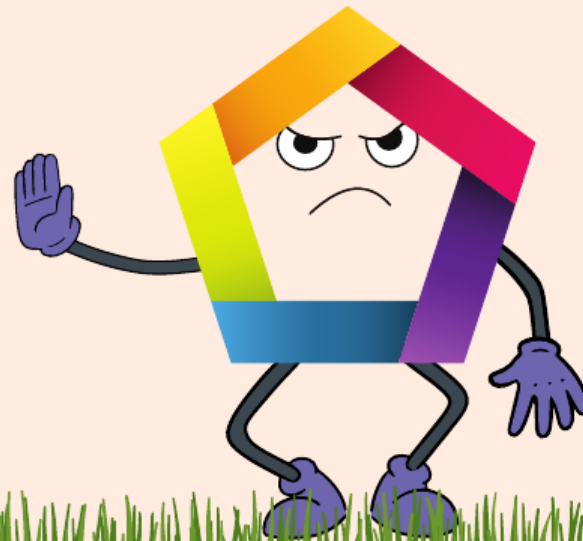

CHAPTER 2

It is quite difficult to pass through the Magical Circle Forest.

Because the Wise Pentagon meets them. He is one of the protectors of the forest, and asks questions to the people if they want to enter the forest.

“Hello to you Wise Pentagon!” says Mr. Pi.

“Can we pass through the forest, Mr. Wise Pentagon?” asks Ms. Beta.

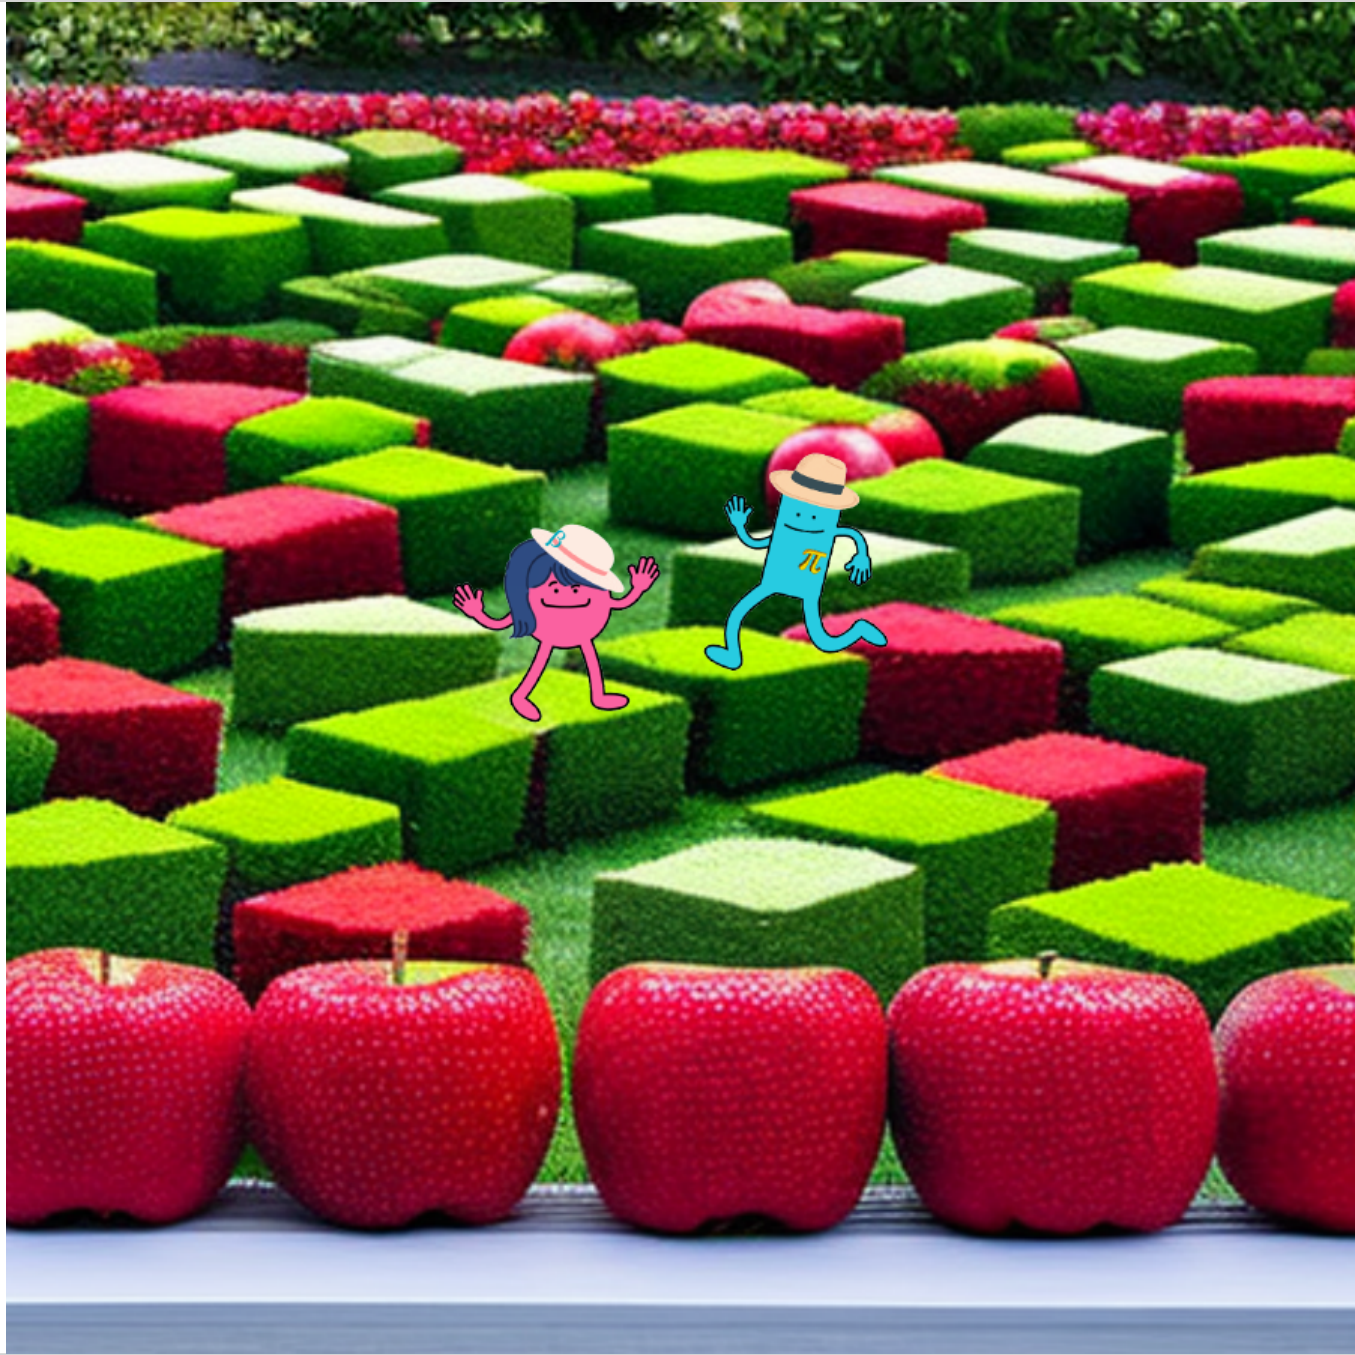

After greeting them, the Wise Pentagon asks his question:
I am less than 5.
I am more than the number of sides in a triangle.
What number am I?

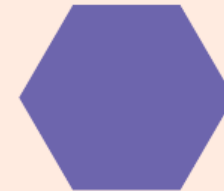

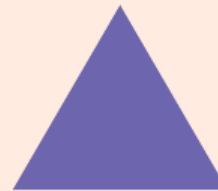

They think, think and think...
“FOUR!” they shout together!
They are very smart and they do the task very quickly.
They are so happy!
Now, it is time to continue the journey!
To the palace...
They look at the map and walk towards the Cube Apples
Garden....

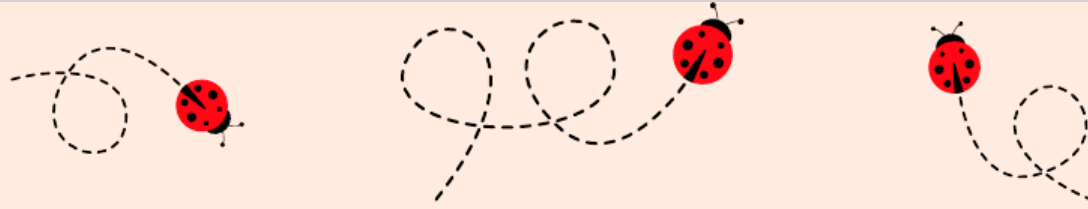

As they cross the Cube Apples Garden, Mr. Pi and Ms. Beta are given another task to complete. They need to match the shapes with the objects. Otherwise they won't be able to move further and get to The Triangle Palace.

They are very smart and they do the task very quickly.

The guardian is impressed and opens the gate for them. Behind the gate, they are surprised to see...

CHAPTER 3

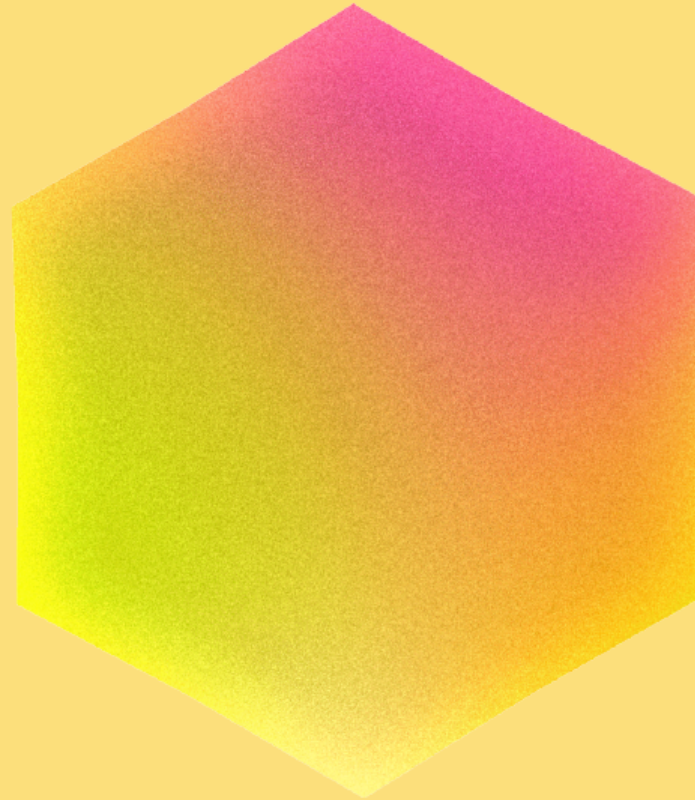

A water fountain!
They were surprised!
What's the mystery of this fountain?

They look at the fountain very carefully. All of a sudden, they hear a sound from the ground. They look down and see that there is a pentagon button!

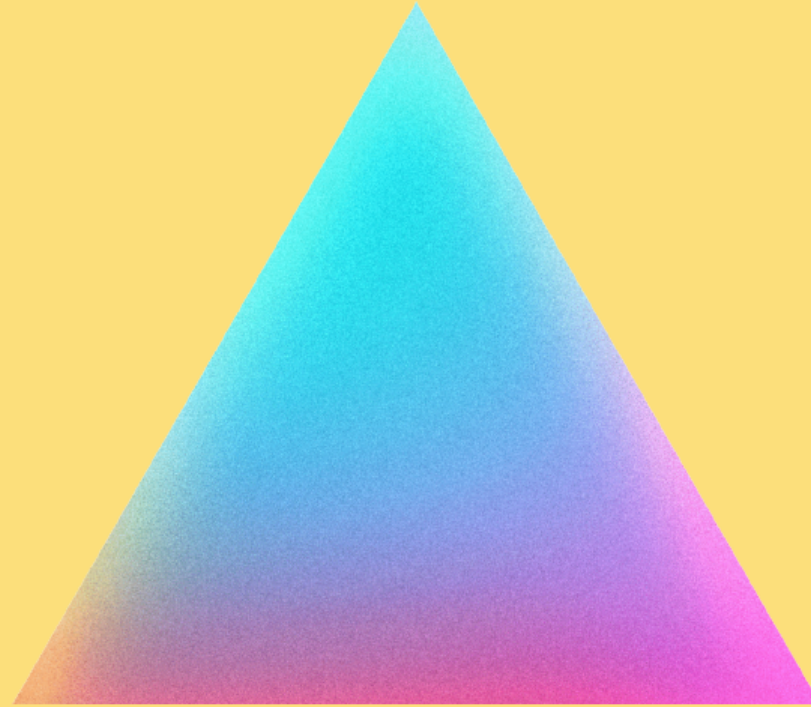

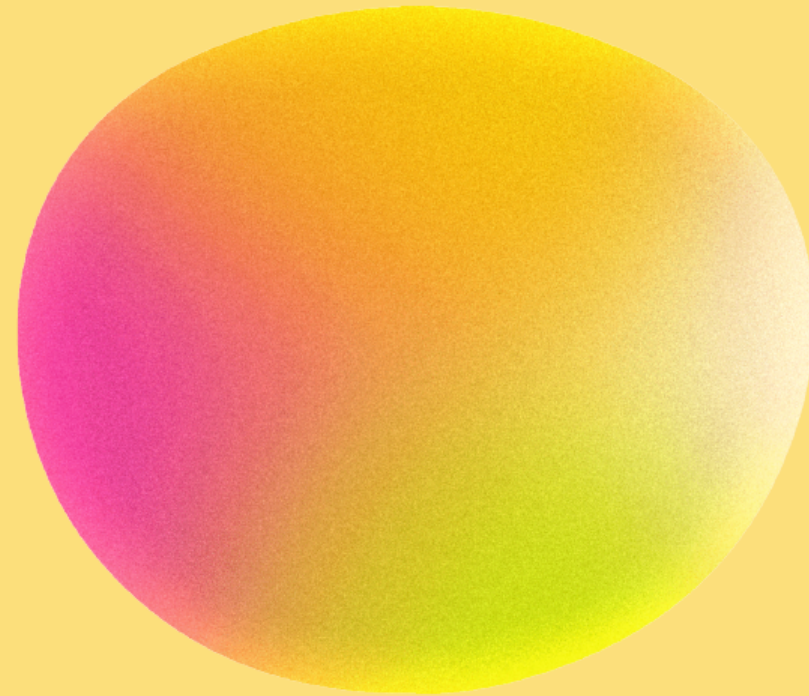

Mr. Pi presses the button five times and a square button
appears next to Ms. Beta!

She also presses it four times, and then a triangle!
He quickly presses it 3 times.

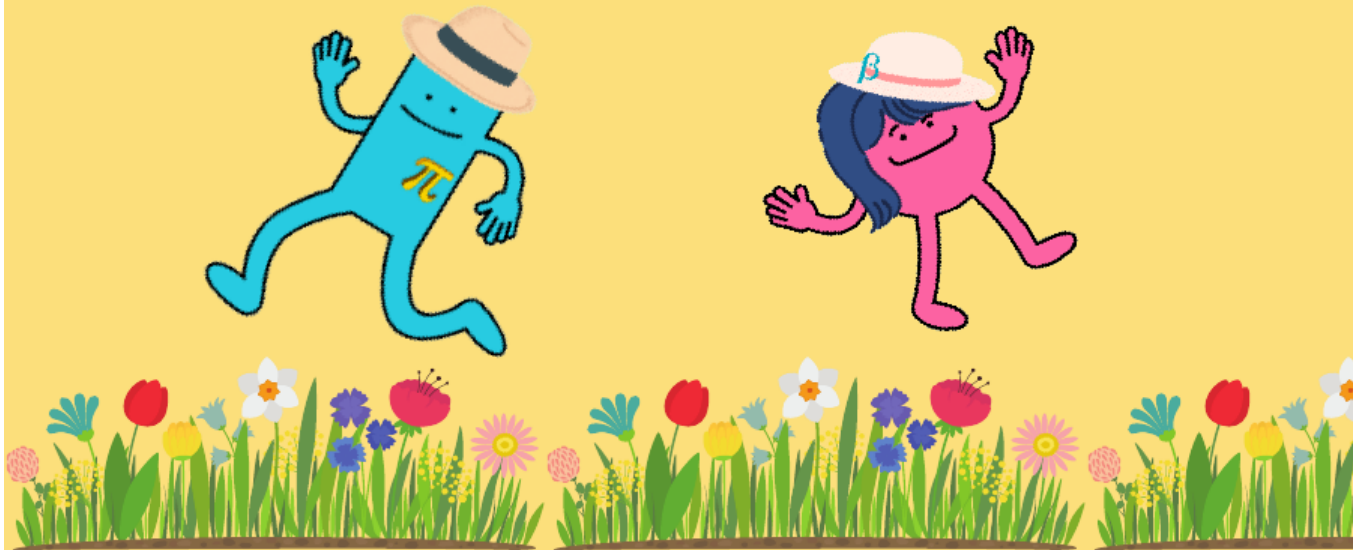

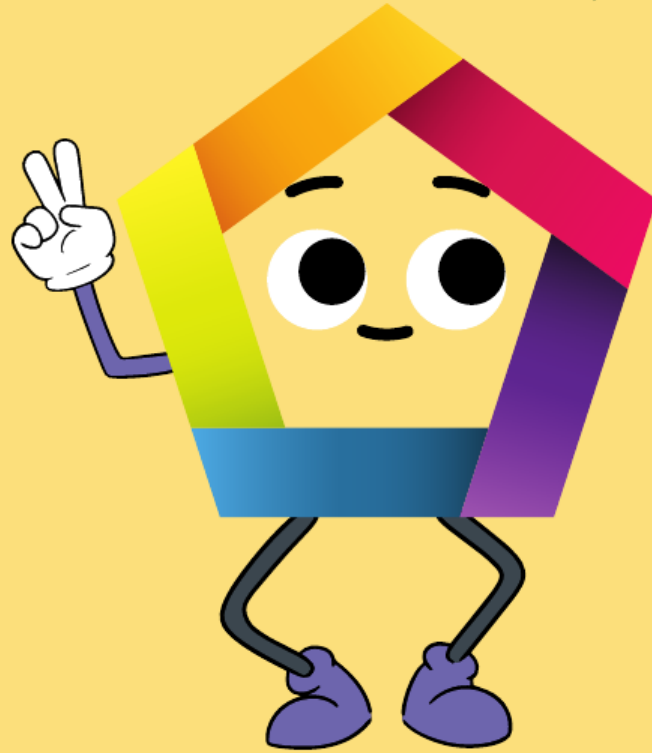

The water disappears, but there comes a circle button!

Mr. Pi wants to press the button but Ms. Beta stops him.
“This is a circle and circles don’t have any sides!” Ms. Beta
says.

“Yeah, that’s true!” agrees Mr. Pi and steps back.

And the guardian comes.
“Wow! You’re really smart!” the guardian says.
Mr. Pi and Ms. Beta giggle in happiness.
The guardian takes them to another place and they are
shocked to see...

CHAPTER 4

A boat on top of the Hill! The hill of the
giant square!

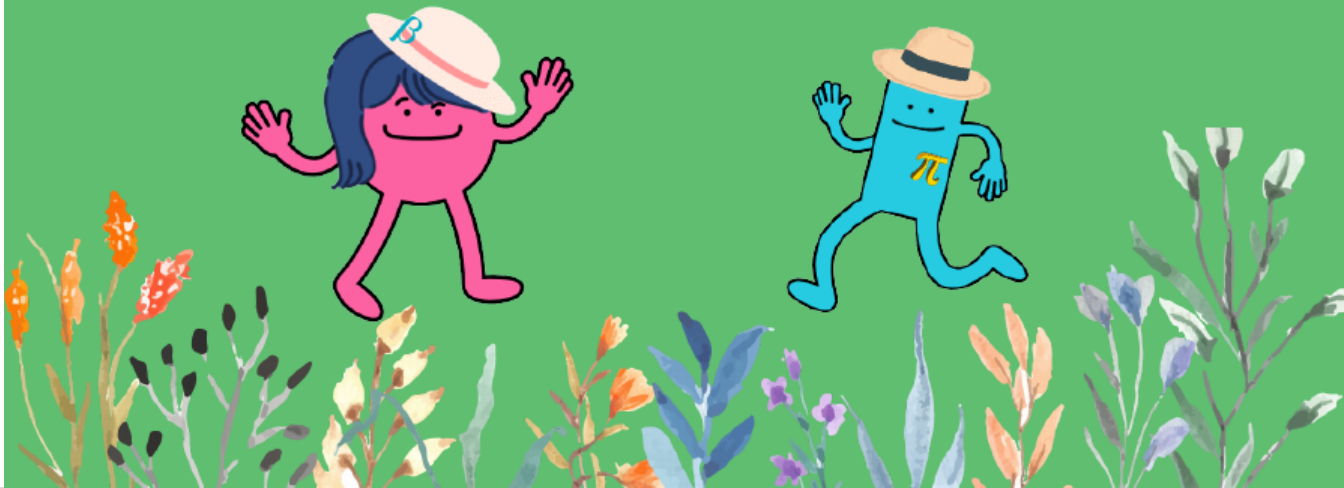

They have to start the boat and bring it to the Ocean of the Blue Pyramids. They see the rudder on the other side of the boat.

Mr. Pi raises the rudder but it doesn't work!

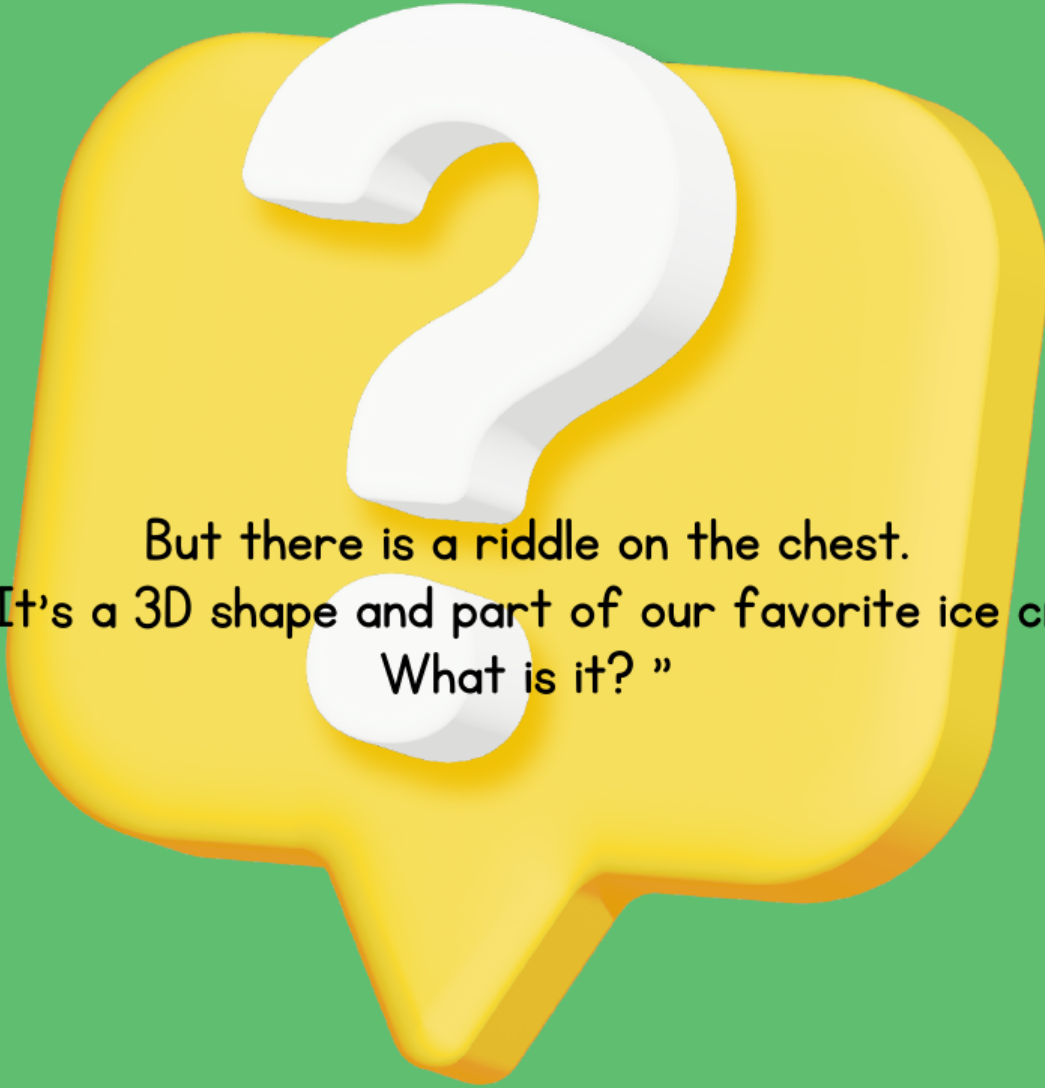

It needs a heart shaped key.
Where is it?

Ms. Beta looks at the captain's golden chest.

There it is!

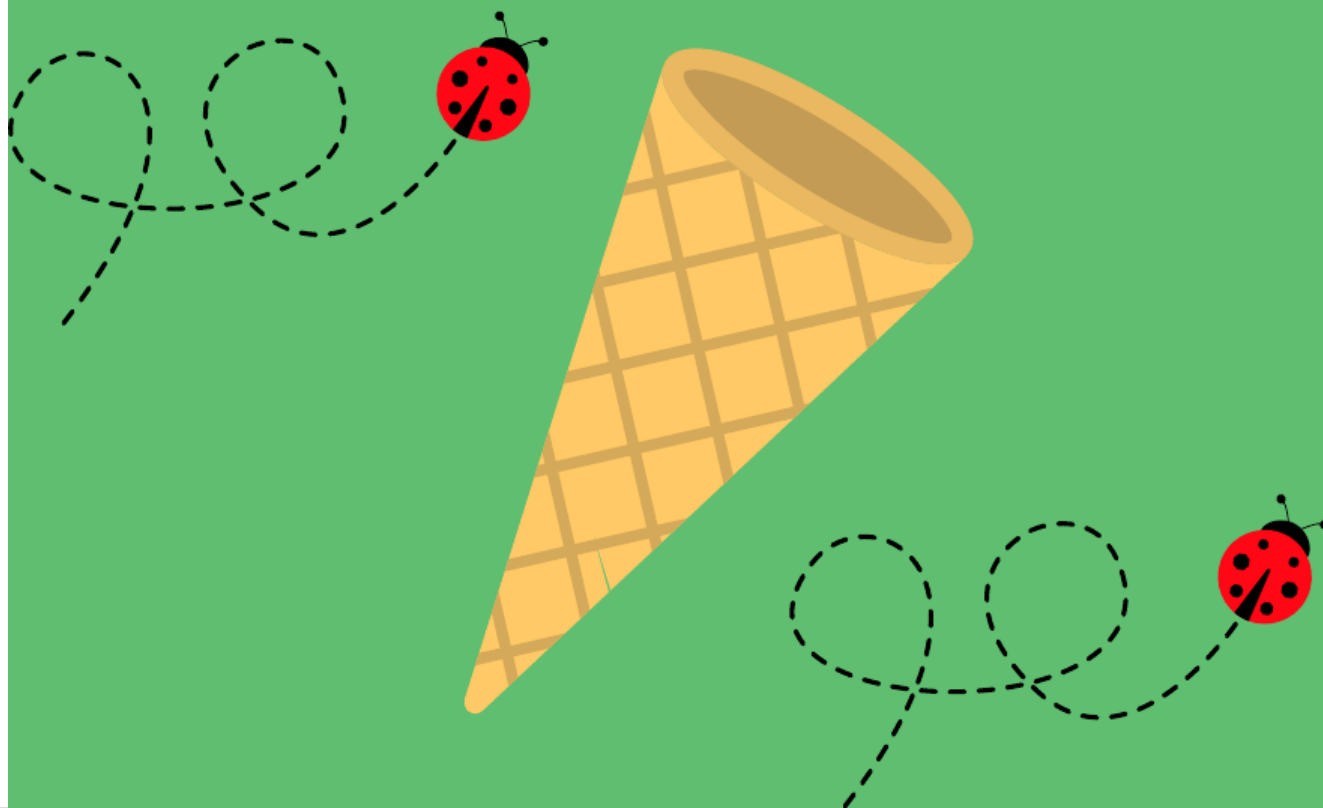

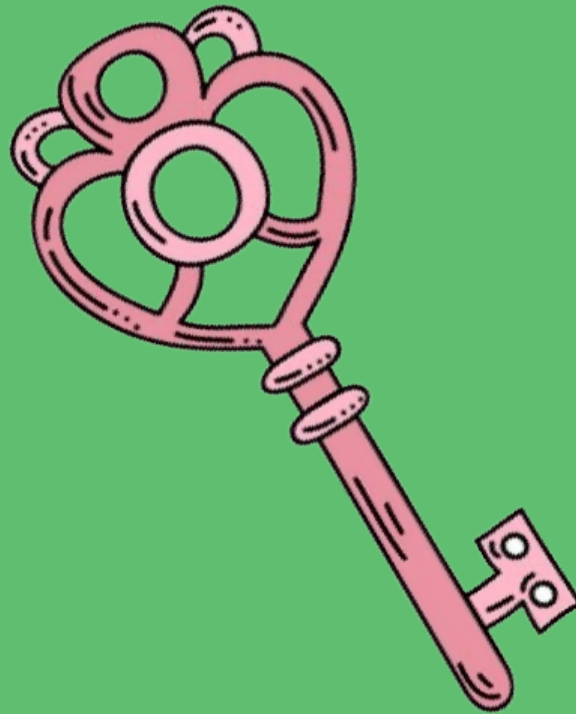

But there is a riddle on the chest.
“It’s a 3D shape and part of our favorite ice cream!
What is it? ”

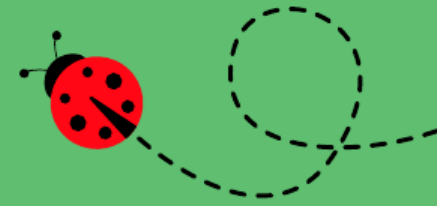

The kids start to panic, but Ms. Beta, as smart as she is,
quickly responds:

-The Cone!!

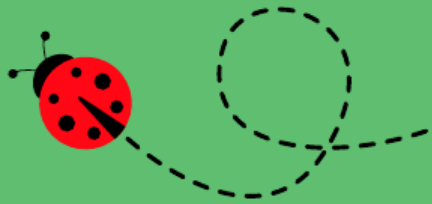

Amazing golden chest is opened and they get the heart key.

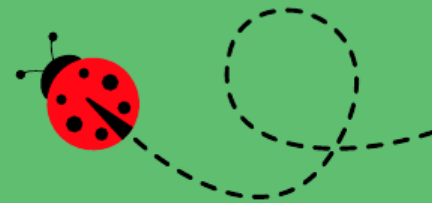

-Hurry up, Mr. Pi! It's getting late! Ms. Betta says. She is scared;

-You are right! Let's do this! said Mr. Pi full of hope;

Mr. Pi positions the rudder after entering the key and they turn them at the same time.

A bright light suddenly
appears from the blue
sky!

HOME
sweet
HOME

They are finally at home.

”What an experience!” the kids shout together.

The Adventures of Mr. Pi and Ms. Beta

This storybook was prepared by the students of the “Lingua Mathematica” (2021-1-HR01-KA220-SCH-000034415) Project. The project partners are from the countries as follows:

Turkiye
Croatia
Romania
Poland
Greece
The Republic of North Macedonia
