

# UPDATE ON PV IN THE BALKANS

Marjan Dzeperoski PhD, RA & PV Manager

Bionika Pharmaceuticals

# CONTENTS

- Local QPPV
- Countries of interest
- Location
- More niche look towards a local scale – the Balkan non-EU countries
- How to overcome differences in regulation across local regions

# HOW TO OVERCOME DIFFERENCIES ACROSS LOCAL REGIONS

- All countries are following EU Regulation, but there are differences in-between countries
- Macedonia is the only country from the region which has developed own data processing network and management system
- Trainings and education/learning; audits are essential
- It is expected that all countries will develop similar network and management system in the near future
- Regional aspects are moving towards Global aspects - Harmonisation
