

Project No: **2022-3-MK01-KA210-YOU-000097481**

Project Title: **How to become a digital entrepreneur?**

Project Acronym: DiGi entrepreneurs

Project start date: 01/01/2023

Project end date: 01/10/2023

General Info:

The overall intention of the project is to combine digital and entrepreneurial skills for the professional upgrade of young people from North Macedonia, Bulgaria and Poland making them ready to start their own local companies thus making them leaders in the economic market. The project will contribute to the digital transformation of society and the entrepreneurship community through the development of digital readiness, resilience and capacity of the young people who are the main target of this project. The young people will pass through several different modules and mentorship sessions that will prepare them to become future digital entrepreneurs. The project will lead towards inclusion and diversity in all fields of education, training, youth and sport through the involvement of the project partners and targeting a diverse and inclusive group of young people who will be invited to participate in the training program developed through this project. Moreover, a diverse and inclusive group of young people will be created as a non-formal network of future digital entrepreneurs from participating organisations. The project in a long run will strengthen the employability of young people and open new opportunities for them through their empowerment for starting digital enterprises or transforming the existing ones into digital ones. Digital enterprises as a new sector will open new opportunities and possibilities for the young people in the country excepting to influence the decrease of the brain drain in the country. Finally, the project will create a new, innovative certified training program for future digital entrepreneurs that will strengthen young people`s digital skills and competencies.
