

Sustainable Development Goals

Tamara Jovanov Apasieva

Што се SDGs?

- Целите за одржлив развој (SDGs), исто така познати како Глобални цели, се збир од 17 меѓусебно поврзани цели усвоени од сите земји-членки на Обединетите нации.
- Тие се дизајнирани да одговорат на широк опсег на **социјални, економски и еколошки предизвици** и **промовирање на поодржлив и правичен свет.**
- Постигнувањето на овие цели бара соработка и **посветеност на владите, бизнисите, граѓанското општество и поединците широм светот.**
