# II ASCEA

## Conference

# 2023

### ORGANISER

Central European Academy

### DATE OF THE CONFERENCE

21-22 September 2023

### VENUE OF THE CONFERENCE

1013 Budapest, Krisztina krt. 41-43.

### CONCEPT

The conference aims to bring together outstanding young researchers from the Central European region in order to provide a platform where the future generation of legal scholars can discuss the most relevant and topical legal issues of the region. The exchange of ideas on innovative and well-functioning regulatory measures and good practices contributes to a higher level of cooperation between different neighboring countries and enables participants to develop a common Central European approach to these issues. The conference will be divided into several thematic panels, each one of them organized by Ph.D. students of the Central European Comparative Law program at the Ferenc Deák Doctoral School of Law at the University of Miskolc and research interns at the Central European Academy. Topics of the panels will focus on issues relating to adoption, consumer protection, energy and water law, environmental protection and climate change, EU law, international and domestic criminal law, labor law and social security issues, law of obligations, real estate law, space law, and tax law.

**The 'ASCEA' conference is organised within the framework of the collaboration with the Ministry of EU Affairs and the Ferenc Mádl Institute of Comparative Law in preparation for the Hungarian EU Presidency in 2024.**
