SCOPE

Oxford Medical Case Reports (OMCR) is an open access, peer-reviewed online journal publishing original and educationally valuable case reports that expand the field of medicine. The journal covers all medical specialities including cardiology, rheumatology, nephrology, oncology, neurology, and reproduction, comprising a comprehensive resource for physicians in all fields and at all stages of training. Oxford Medical Case Reports deposits all articles in PubMed Central (PMC). Physicians and researchers can find your work through PubMed , helping you reach the widest possible audience. The journal is also indexed in the Web of Science Core Collection . Oxford Medical Case Reports publishes case reports under the following categories: Allergy Audiovestibular medicine Cardiology and cardiovascular systems Critical care medicine Dermatology Emergency medicine Endocrinology and metabolism Gastroenterology and hepatology Geriatrics and gerontology Haematology Immunology Infectious diseases and tropical medicine Medical disorders in pregnancy Medical ophthalmology Nephrology Neurology Oncology Paediatrics Pain Palliative medicine Pharmacology and pharmacy Psychiatry Radiology, nuclear medicine, and medical imaging Respiratory disorders Rheumatology Sexual and reproductive health Sports Medicine Substance abuse.

The users of Scimago Journal & Country Rank have the possibility to dialogue through comments linked to a specific journal. The purpose is to have a forum in which general doubts about the processes of publication in the journal, experiences and other issues derived from the publication of papers are resolved. For topics on particular articles, maintain the dialogue through the usual channels with your editor.
