RAD

CONFERENCE

TWELFTH INTERNATIONAL CONFERENCE OF RADIATION,
NATURAL SCIENCES, MEDICINE, ENGINEERING, TECHNOLOGY AND ECOLOGY
JUNE 17-21, 2024 | HUNGUEST HOTEL SUN RESORT, HERCEG NOVI, MONTENEGRO

TABLE OF CONTENTS

Click on the title of the abstract to access it

Novel applications of progeny of Radium-226 as tracers and chronometer to evaluate global climate change: A review	1
Fatty acid enzyme activities and risk of diabetes mellitus	2
Effect of dexketoprofen on hematological parameters of <i>Rattus norvegicus</i> (Berkenhout, 1769).....	3
Ferredoxin: NADP+ oxidoreductases as the sources of free radicals of redox active xenobiotics and drugs.....	4
Metabolic rate changes of the long-tailed ground squirrel <i>Uroditellus undulatus</i> in preparation for hibernation.....	5
Effects of IGF-1 on the IGFB proteins level in the serum of obese male rats	6
Polyamine metabolizing enzyme activities in testicular tissue of rats exposed to microwave radiation .	7
Effects of <i>Trichoderma</i> spp. on secondary metabolism of tomato plants under drought conditions	8
Biocontrol efficiency and peptaibol profiles of selected <i>Trichoderma</i> species	9
Sexual dimorphism in shape and size of viscerocranium.....	10
A geometric morphometric study on the pelvic inlet using CT scans.....	11
Orthopoxvirus infection does not induce maturation of mouse FLT3L-derived dendritic cells.....	12
Investigation of the radio-sensitizing effect of cyclin dependent kinase 4/6 (CDK4/6) inhibitors in glioblastoma cell line.....	13
Monolacunary Wells-Dawson polyoxotungstate as a potential anti-tumor agent.....	14
Micronuclei frequency in lymphocytes of patients with acute coronary syndrome before and after coronary angiography.....	15
Effects of ionizing radiation on the structure of deoxyribonucleic acid investigated by infrared spectroscopy	16
Mini-gamma-quantum irradiation and device for differentiation biological tissues	17
Features of HPV infection and association with clinical and morphologic factors of cervical cancer ...	18
Selection of radionuclide(s) for Targeted Radionuclide Therapy based on their nuclear decay properties.....	19
Synthesis, structural and UV-absorption studies of 4-aryl substituted fused triazinobenzimidazole azaheterocycles.....	20
Assessment of the μ -SPE-PT method for the analysis of inorganic anions: iodide determination	21
Inductively coupled plasma-optical emission spectroscopy approach for the determination of some trace elements in stinging nettle.....	22
Optimization of molecular imprinted polymer synthesis for extraction of quercetin	23
Is COVID-19 vaccination associated with increased all-cause mortality in infants, children, and young adults?	24
Fear of COVID-19 among healthcare workers and recovered patients during the COVID-19 pandemic	25

Capturing energy from thin air: Radio wave energy harvesting.....	26
Origin of lipid tracers in the surface soils using diagnostic indices and Hierarchical Cluster Analysis.	27
Design and implementation of photovoltaic parks with low power to increase the weight of green energy and reduce pollution due to fossil fuels.....	28
Bilateral proficiency test on radon measurements in soil	29
Overlooked electromagnetic pollution.....	30
Exploring radiation effects on meristem regenerative restoration in relation to chromosome structural deficiencies: a practical scheme for assessing plant vitality at Pb emission sites in the Meža valley, Slovenia	31
Neutron activation analysis in the assessment of marine pollution	32
Enhancing health impact estimation for construction workers: simultaneous noise measurements using noise dosimeter and phonometer.....	33
A four-year study of the pigment content on wild-growing plants at Moussala Peak.....	34
Gross β -radioactivity of some crops grown in different hydroponic systems and soil conditions in Ararat Valley.....	35
Composite adsorbents based on natural zeolite for selective removal of toxic metals and radionuclides	36
Evaluation of ionising radiation with life cycle impact assessment methods.....	37
Vulnerability of forest ecosystems from the Republic of Moldova to climate change in the context of ecological security.....	38
Lessons from the 2011 Tohoku Megaquake and Tsunami-in order to survive.....	39
Layered nano MoS ₂ photocatalyst for organic water pollutants degradation	40
Investigation of the anthropogenic effects on St. Anna Lake sediment dynamics.....	41
Differentiation of pea and grass pea samples based on GC-MS analysis of sugar compounds coupled to multivariate statistics	42
The effect of fermentation by <i>Bacillus subtilis</i> on the disappearance kinetics of pesticide in legume seeds	43
Determination of the effects of radiation sterilization process on alder buckthorn (<i>Rhamnus Cathartica L.</i>) and marshmallow (<i>Althaea Officinalis L.</i>) and the radio sterilization detection by electron paramagnetic resonance (EPR) technique.....	44
Genotoxic screening of the effect of <i>Rosa gallica</i> L. essential oil evaluated by induction of chromosome aberrations and micronuclei in plant and human lymphocyte test-systems	45
The impact of melatonin treatment during the vinification of Moldova wine on its cytotoxic effects ...	46
The testing of current characteristics of adaptive potential of the body in patients with catarrhal gingivitis against the background of radiation and chemotherapy	47
Calculations of electric and magnetic fields at the location of the intersection of two overhead power lines.....	49
Calculations of magnetic flux density in the vicinity of the 10/0.4 kV substations with 0.4 kV busbars	50
Applying principles of circular economy to wearable devices for greener production and use	51

Diagnostic and dosimetry for laser-driven proton beams.....	52
Influence of energy factors of magnetron spray systems in the formation of transition metal diborides films	53
Alpha particle production from Laser-driven proton-boron nuclear reaction in hole-boring scheme..	54
Optimizing capillary design for very high energy electron (VHEE) applications	55
Radiation protection at the ELI Beamlines facility	56
Empowering physics through large language models: A new paradigm for data analysis and simulation	57
Optical and dielectric properties of BaF ₂ :(Er,Yb) double-doped crystals	58
Computation of electron density in alloy semiconductors for device applications.....	59
Effect of polyol molecular weight and structure cyclodextrins on biodegradable polyurethanes for pharmaceutical purposes	60
Montmorillonite K10 and NaK10 as bifunctional materials: scavengers of formaldehyde from urea-formaldehyde resins and methylene blue in aqueous media	61
Laser-induced graphenization of poly(dimethylsiloxane)/poly(ethylene glycol) composite	62
Application of microwaves at treatment mineral raw materials	63
Utilization of microwave radiation at brown coal treatment.....	64
Effects of the injection of CrN nanolayers and Y in arc-deposited TiAlN nanocoatings: A precise X-ray diffraction study	65
Investigating the effects of weathering on barium crystal glass	66
Physicochemical properties of modified silica glass compositions for medical applications.....	67
Basic characterization of glasses for production of glass fibrous insulations used in nuclear power industry	68
Physicochemical characterization of Au/PNiPAAm hydrogel nanocomposites: influence of nanoparticle shape.....	69
Structural and optical properties of CdWO ₄ films synthesized by chemical bath deposition	70
Overview of the complex dehydration processes of hydrogels described by novel kinetics models.....	71
Stability of zircon in fluorine-containing hydrothermal fluids.....	72
Microstructural, electrical, and tribomechanical properties of Mo-W-C nanocomposite films	73
Research of radiation resistance of diferent materials at the IBR-2 reactor in 2025-2032	74
The role of ion-exchange natural bentonites in changing dielectric properties and AC conductivity....	75
Influence of Cu on the microstructure and properties of CrMnFeNiCu high-entropy alloy and coating	76
Changes of podosomes morphology in the macrophages (RAW 264.7) as an indicator of inflammation (M1) or repair (M2) phenotype	77
Mobile X-ray systems with tomosynthesis mode	78
Tribological and biomedical applications of boron nitride coatings.....	79
Improved bio-performance of stainless steel 316L	80

Differential diagnosis characteristics for children's pilocytic astrocytoma.....	81
Nuclear medicine imaging in paediatric nephro-urology.....	82
Artificial Intelligence in radiography: reviewing current applications and providing e-learnings for (future) radiographers.....	83
Optimization of the accuracy of the electrical impedance tomography images of the lung	84
Simulation-based study of scattered radiation influence on contrast and spatial resolution in projection radiography.....	85
Improving the efficiency of X-ray diagnostics using lightweight digital X-ray diagnostic complexes ...	86
Mathematical modeling of stress-strain state of the thoracic spine in children	87
Prevalence of emphysema in patients undergoing lung cancer screening using low-dose CT lung	88
X-ray spectrum optimization for low dose CT	89
Molecular magnetic resonance imaging of prostate cancer using core/shell nanoparticles	90
A multicentric study on a dosimetric comparison of extended SSD technique, VMAT-based and helical tomotherapy (HT) for total body irradiation (TBI).....	91
Assessment of intrafraction prostate movement based on ultrasound monitoring	92
Risk management in a calibration laboratory accredited for compliance with the ISO/IEC 17025 standard - practical examples	93
Replicate calibrations using the same method as one of the ways to ensure the validity of the results of the laboratory calibrating ionization chambers for radiotherapy centers in Poland.....	94
Pilot study of HDR brachytherapy dosimetry audit in Poland	95
The estimation and optimization of possible occurring errors from the commissioning of a LINAC to clinical use.....	96
Small radiation field dosimetry and its implication in the accuracy of stereotactic treatments	97
Comparison of FOTELP software and treatment planning system efficiency in brachytherapy for cervical cancer: A case study	98
Real time (in vivo) dose measurements in brachytherapy using scintillation detectors.....	99
The effect of low energy X-rays on the measurement of absorbed dose using TLD-100 dosimeters in radiological studies	100
Radiological properties of MAGAT gel formulas.....	101
The effect of artifacts from metal structures in the body on the distribution of absorbed dose	102
SPECT and hybrid TC-99m-tektrotyd imaging in the follow-up of neuroendocrine neoplasms of appendix.....	103
Arginase activity in different tissues of rats exposed to mobile phone microwave radiation.....	104
Organization models of kilovoltage X-ray therapy care and system used.....	105
Physiotherapy program in adulthood patients with idiopathic cervical scoliosis.....	106
Success of performing the technique of forced oscillations (FOT) in the diagnosis of small airways disease in children	107
Kynurenic pathway activation reduces bone turnover in the bone of young rats with experimental chronic kidney disease	108

Indoxyl sulfate alters AHR signaling, sirtuins gene expression, oxidative DNA damage, and bone mineral status in rats.....	109
Nanoformulation with antimicrobial and antioxidant properties	110
Low-dose computed tomography and AI in lung cancer screening.....	111
Ultrasound densitometry for bone fractures in children.....	112
Activity of superoxide dismutase and its cofactors in maternal venous blood and umbilical cord blood of newborns	113
Content of selected bioelements and antioxidant potential of <i>Urtica dioica</i> in the body of a pregnant woman	114
Synthesis and biological activity of some novel complexes of (methylcarbamoyl)phenylcarbamate.	115
Direct acting oral anticoagulants (DOACs) in the treatment of renal preservation in NVAf patients	116
Polarized microscopy in genetic hair disorders: case series	117
Atopic dermatitis	118
Electromagnetic bio-effects on human organs, tissues and cells in high microwave radiated environment	119
Exploring the effects of pulsed radar exposure on rat behavior and neural response	120
Dielectric sealers as a source of RF overexposure in working environment.....	121
Radiation for prostate cancer nanotheranostics - radiopharmaceutical meets nanomedicine.....	122
The integration of Astatine-211 as potential radiotheranostics in personalized cancer treatment	123
Copper radiopharmaceuticals as cancer theranostics: Advantages, limitations, and clinical applications.....	124
New applications of radiation processing and development of nanoradiopharmaceuticals.....	125
Evaluation of “honesty” based on initial effect using biological information.....	126
Machine learning in cognitive neuroscience: A promising approach for early detection of alzheimer's disease.....	127
Principle of general optimization of administered activity in bone scintigraphy, introducing new gamma cameras, based on FOM.....	128
Exploring intermediate-energy proton reactions for non-standard positron emitters radiopharmaceutical applications	129
Selection of a reference region in PET with radiolabeled amino acids for assessment of the pons in children	130
Orphan radiopharmaceutical drugs registered in EU.....	131
Lutetium-177 immunoconjugates – Immunotheranostics for successful translational in molecular imaging and therapy.....	132
Hematological toxicity of radionuclide therapy with ¹⁵³ Sm-oxabiphore of bone metastases in oncological patients.....	133
Quality assurance and quality control of dose calibrators used in nuclear medicine department	134
Therapeutic options in advanced renal cell carcinoma (RCC): Clinical case.....	135
New therapeutic approaches in advanced clear cell renal carcinoma - How to choose	136

Parametric investigation on a serpentine condensing heat exchanger	137
Theoretical analysis of delamination in a viscoelastic multilayered bar built-up at both ends	138
Twist velocity influence on lengthwise fracture of inhomogeneous bars under torsional loading	139
Functionally graded frames under support displacements: a longitudinal fracture analysis with taking into account the non-linear relaxation.....	140
EPR radio-sterilization detection study for some medicines	141
Maintenance of PCNFS physical protection system.....	142
Designing, engineering and implementation of transport container for disused Category I source....	143
Theranostic potential of Lutetium-177: Characteristics and applications	144
The fundamental role of information in exploring of the universe.....	145
Convolutional integrals, spline polynomials and fractional order derivatives in more accurate pharmacokinetic, bioequivalence and individual anticancer dosage evaluations.....	146
Influence of UVB irradiation on N-alkylamides from <i>Acmella oleracea</i> extract	147
Identification of hyperforin degradation products; UVA irradiation impact studies.....	148
Improved nitrite quantitation method for testing N-nirosamines reduction in pharmaceuticals	149
Perception of physical stressors in a potentially controlled work environment	150
Cold gas dynamic spraying method for creating barrier coatings with boron.....	151
Measurements of $^{45}\text{In}(\gamma, n)$ reaction cross-sections using bremsstrahlung photon irradiation	152
Control of light propagation in photonic lattice	153
High-resolution X-ray photoelectron spectra of isoxazole and oxazole	154
Collisions of furan and trihydrogen cations studied by collision-induced emission spectroscopy	155
Sediment chronologies with ^{210}Po and ^{137}Cs as fundamental tools for environmental forensic studies: Examples from Italy	156
Radon and its progeny migration in a natural gas extraction and treatment facility: In-situ characterization of Pb-210 - Case study.....	157
Distribution and mobility of Polonium-210 in Castillos lagoon: Concentrations and trophic transfer	158
Natural radioactivity assessment of ^{210}Pb , ^{226}Ra , ^{228}Ra and ^{40}K in food samples of the south Tunisian phosphate area	159
Lead-210 application in the reconstruction of peat bog carbon dynamics	160
Novel method for ^{210}Po determination in environmental samples	161
Radon -222 diffusion in sediment-water interface and it's effect under Pb-210 dating method.....	162
Determination of lead-210 by the liquid scintillation counting method. Development of radiochemical methods for solid and liquid samples preparation in connection with gross alpha-beta and gamma spectrometry, and XRF methods.....	163
Effect of gamma ray irradiation on structural and optical properties of zinc-phthalocyanine	164
Singlet oxygen production induced by UV-A irradiation of PPIX-SUV liposomes.....	165

Possibilities for research in radiation chemistry and photochemistry at the ELI Beamlines facility of the Extreme Light Infrastructure ERIC	166
In situ testing of a prototype of a laser dosimetry probe with wireless data transmission, based on the radiochromic phenomenon in an organic detection element	167
Growth of CZTSe Bulk Crystals by Vertical Gradient Freeze technique.....	168
Design and evaluation of a State-of-the-Art Single-Plane Compton gamma camera for nuclear imaging	169
Improvement of timing properties of multicomponent Ce-doped garnet-type scintillators by composition engineering and cooping	170
A method for verifying dose-anatomical plans for stereotactic proton therapy based on the SC-1000 accelerator using radiochromic films	171
Femtosecond laser TCT station to study radiation hard detectors at ELI Beamlines facility	172
Annealing effect on TlBr crystal for gamma-ray detectors.....	173
3D structure for dosimetry with Silicon PIN photodiode BPW34S	174
Radiation damage investigation on SiC detectors	175
Integration of a radiation sensor into a modular CBRN system	176
Method for determination the energy distribution of neutron radiation flux density using AT1117M radiation monitor with BDKN-06 detection unit and a set of moderator spheres	177
Response of VTO6 RADFET to low energy proton beams.....	178
Response of 3N163 MOSFETs to a high energy proton beam.....	179
Versatile NFC-reader for MOSFET sensors with enhanced voltage operation	180
Application of detectors based on LiF:ZnS(Ag) mixture with natural and elevated concentration of ⁶ Li isotope for detection of neutron radiation.....	181
Border safety for RN Treats with small devices: High-K RADFETs with preliminary electrical characterization.....	182
The gain associated discharge of the inter-pixel region in TI-LGAD: Insights into two-stage charge multiplication at Si/SiO ₂ interface between SiO ₂ trenches	183
Coupled floating gate MOS transistors as a radiation detector	184
Effect of cobalt ionizing radiation on RADFETs with SiO ₂ oxide and high-k dielectric.....	185
SPICE modeling and simulation of RADFETs.....	186
Assessment of NBT Stressing Impact on the Continuous Operation of Power VDMOS Transistor.....	187
Gamma-irradiation effect on physical aging in vitreous As-Ge selenides and sulfides.....	188
On the functionality of chalcogenide semiconductor glasses modified by gamma-irradiation	189
The influence of various types of radiation on microfungus strains of polar latitudes	190
Study of the process of radiation defect formation in 4H-SiC.....	191
Radiation effects on electronic devices	192
Attenuation of silica-core optical fibres under gamma irradiation.....	193

Analysis of the effects of various thin film fabrication methods on the performance of Yb ₂ O ₃ metal-oxide semiconductor capacitors.....	194
Sensitivity of selected photomultipliers in field gamma and neutron radiation	195
First test of cosmic-ray muon telescope with off-axis movable objective	196
Neutron and gamma radiation in vertical irradiation channels of the LVR-15 research reactor.....	197
A novel method for detection of new Ac-228 isomer with a CeBr ₃ crystal scintillator doping with Ra-228 radioactive source	198
Use of spectral unmixing for rapid foodstuffs analysis in radiological post-accidental situations.....	199
Strengthening radiation safety infrastructure in public company “Nuclear Facilities of Serbia”	200
HPGe detector: From acceptance to commissioning	201
Alpha/beta discrimination by liquid scintillation for post-accidental analysis: Comparison of liquid scintillation counters	202
Noisy radioactivity data analysis using parametric Poisson models	203
Measurement of RF exposure around indoor private 5G network antennas at different levels in university environment.....	204
PB-210 activity concentrations in cigarettes tobaccos and estimation of annual committed effective dose.....	205
Assessment of X-ray quality control parameters at thirty-one private facilities across states in Nigeria	206
Monte Carlo simulations of the cosmic-ray doses for aircraft members.....	207
Baseline assessment of diagnostic reference level for two digital mammography in North Macedonia	208
A new dimension of the physical protection (countermeasures against UAV attacks)	209
Potential aminothiols-based radioprotective agents derivatized by quinolines	210
Assessment of the engineering barriers shielding effectiveness from radioactive waste disposed of in an industrial waste disposal facility at Ignalina NPP	211
The concept of self-protected X-ray units and tomographs for veterinary clinics.....	212
Radioprotective properties of <i>Helianthus tuberosus L. polysaccharide</i> in proton radiation	213
Modelling radionuclide transport using different representations of sorption	214
Designing radiation protection (shielding) with an environmental approach for hadron therapy centers using Monte Carlo simulations	215
Simulations of particle therapy with protons and heavier ions (C, He, Ne and Ar) with the code Fluka	216
The significance of quantities and units in conveying CBRN risk to the public: A big difference in assessing the risk of C and B agents in comparison to R and N components.....	217
Application of dispersion models of ESTE for modelling of the radiological impact of released Cs-137 in a specific urban environment	218
Case report: Hand-held intraoral X-ray unit	219
Radiation protection program for decommissioning of a Cyclotron U-120 type particle accelerator	220

A three dimensional CFD-based approach for the dispersion of radioactive cloud in urban environment	221
Experience in monitoring professional doses of radiation for medical personnel in Ukraine	222
Medical exposure to ionizing radiation - The national results of monitoring in 2022.....	223
Survival of A549 cells after ultrahigh dose rate proton irradiation	224
The human element: Recognizing the vital role of the scorer in the dicentric chromosome assay	225
The radioprotective effects of plants <i>Ononidis radix</i> , <i>Alnus glutinosa</i> and <i>Atriplex littoralis</i> on micronucleus distribution on human lymphocytes.....	226
Advancing precision in cellular radiobiology: Initial findings from the newly developed irradiation method utilizing diagnostic X-ray beam qualities	227
Toxicity and radiation-modifying effects of nanoparticles on zebrafish (<i>Danio rerio</i>) embryo model.....	228
Radiobiology investigation on low intensity neutron beam with zebrafish embryo model.....	229
Evaluation of the assessment dose with biodosimetry methods, applicable in Bulgaria. Use of Dicentric Chromosomal Assay (DCA) and Cytokinesis-Block Micronucleus Assay (CBMN)	230
Cytogenetic dose response on 6 MV linear accelerator: the reduced RBE of megavoltage X-ray photons is not obvious.....	231
Method for determination of Po-210 in water by alpha spectrometry via spontaneous deposition	232
Control of radiochemical purity of ^{99m} Tc-DMSA radiopharmaceutical.....	233
Redistribution of tritium in the water-to-soil-to-air system.....	234
Distribution of natural radionuclides and ¹³⁷ Cs in waste jarosite/Pb-Ag precipitate	235
Radiocaesium in Polish roe deer and red deer: 2015 – 2022 results.....	236
Contamination of farm animal bones with the radioactive isotope ⁹⁰ Sr	237
Estimation of some natural radioisotopes in forest ecosystems at eastern Lithuania	238
Phytoremediation of soil from German nuclear facilities	239
Radionuclide activity in milk and dairy products.....	240
Assessment of boundary parameters of radioactive contamination of STS 'background' areas.....	241
Natural radioactivity of bicarbonate mineral waters from central Serbia	242
Anesthesia for interventional neuroradiologic procedures in children: Our experience	243
Dependence of dose enhancement on gold nanoparticle shape in photon radiotherapy	244
Initial insights into radiosensitization of rhabdomyosarcoma for enhanced hadrontherapy outcomes: Progress from the SaRHa project	245
Fractionated stereotactic radiation therapy for large intracranial brain tumours: Plan quality	246
Exploring radiation therapy during pregnancy in Hodgkin's lymphoma treatment.....	247
Is Thoron a problem in radon measurements with SSNTD? Experimental study.....	248
Relationship between Ra-226 activity concentration in building materials and indoor radon concentration: An example of Russian high-rise residential buildings.....	249
Development of a new Thoron primary standard	250

Artificial intelligence radon flux measuring system at ENEA-INMRI	251
Seasonal changes in the Radon content of mineral and thermal waters in the Erzincan/Türkiye region	252
The Effect of the 7.7 and 7.6 magnitude earthquakes centered in Pazarcık and Elbistan on February 6, 2023, on possible radon anomalies in groundwaters in the Hatay/Türkiye region	253
Study of Radon in workplaces with continuous monitors Radoneye+2.....	254
Radon levels in Biserujka cave and assesement of effective dose received by visitors and tourist guides.....	255
Development of microwave metamaterial-inspired sensors with multiple-band sensitivity for breast tumor detection.....	256
The Langmuir-Blodgett nano thin film deposition method. Chemical sensor applications.....	257
Application of the electrohydraulic shock method for cleaning resins and resin-like contaminants from metal surfaces.....	258
The investigation of reference formulations with real radioactive waste, the study of radionuclide binding and leaching	259
Approach for specific clearance of tritium sources inadvertently disposed of in the landfill facility at Ignalina NPP.....	260
Modelling of flow and convective heat transfer in serpentine heat exchanger.....	261
Interaction of synthetic geopolymer and cementitious materials with ⁸⁵ Sr and ¹³⁷ Cs.....	262
A new prototype system for producing pure CO ₂ of interest for radiocarbon measurements	263
