

Two essays in
optimal taxation
and one in
common
knowledge and
bounded
rationality

Dushko Josheski
Tatjana Boshkov
Natasha Miteva

OPTIMAL TAXATION POLICY, MONETARY POLICY AND STATE-CONTINGENT DEBT, TIME INCONSISTENCY IN RAMSEY PROBLEM, TAX SMOOTHING, NON-CRRA PREFERENCES AND TAXATION IN LQ ECONOMY.....	1
Introduction	2
Competitive equilibrium with distorting taxes.....	3
Implementability constraint.....	5
Further specialization and determining the Lagrange multiplier	8
The issue of time inconsistency.....	9
Model specification with CRRA utility.....	10
Recursive formulation of Ramsey problem, intertemporal delegation and two Bellman equations.....	11
Example : Anticipated one period war	13
Example : Tax smoothing and Ramsey time inconsistency and non-CRRA preferences	14
Taxation in LQ (linear quadratic) economy	20
Conclusions	32
References.....	33
KRIPKE SEMANTICS, COMMON KNOWLEDGE, BOUNDED RATIONALITY AND AUMANN'S AGREEMENT THEOREM.....	35
Introduction	36
Kripke semantics, classical and intuitionistic Kripke model, and Zermelo-Fraenkel set theory	37
Truth in Kripke Models	43
Properties of the Accessibility Relation R	44
Validity and Satisfaction in Kripke Models	44
Common knowledge.....	44
Common knowledge in Kripke frame	45
Set-theoretic model of common knowledge in Kripke semantics	46
Iterated knowledge	47
Standard model of knowledge as in Hintikka (1962) per Rubinstein (1998).....	48
Back to Kripke's S5 system.....	50
Reasoning Depth ,Kantian equilibrium and Nash equilibrium	51
Bounded rationality: Luce model with bounded rationality included.....	52
Conditional probability theory and Luce model	55

Matching law formulation	56
The Agreement Theorem.....	58
Numerical examples	59
Conclusion	66
References.....	67
OPTIMAL TAXATION WITHOUT STATE-CONTINGENT DEBT, THE RAMSEY ALLOCATION FOR A GIVEN MULTIPLIER, AND TAX SMOOTHING OF CONSUMPTION AND TAXES IN COMPLETE AND INCOMPLETE MARKETS	69
Introduction	70
Barro's Tax Smoothing Hypothesis without state-contingent debt	71
Competitive equilibrium with distorting taxes.....	73
Risk-free One-Period Debt Only	74
Ramsey Problem Without State-contingent Debt.....	76
Abel summation formula	77
Back to Ramsey Problem Without State-contingent Debt	78
Numerical example	79
Example: Anticipated One-Period War	81
Example: Anticipated Two-Period War	83
Example: Anticipated Four-Period War	85
Example: Optimal taxation without state-contingent debt in LQ economy	89
Conclusion(s) or explanations.....	92
References.....	92

Copyrighted Material

Dushko Josheski is a professor in economic theory at Faculty of Tourism and Business Logistics, Goce Delcev University, Stip. He works there since 2009.

This book contains three essays that cover topics mainly in optimal taxation, state-contingent debt, incomplete markets, bounded rationality (k-level thinking), common knowledge and Kripke semantics.
