Naslov / Title

Konferenca VIVUS: ZDRAVO OKOLJE – NAŠA PRIHODNOST
Conference VIVUS: HEALTHY ENVIRONMENT – OUR FUTURE

Zbornik izvlečkov / Collection of Abstracts

Strahinj, 21. november 2024 / 21st November 2024

Uredniki / Editors

dr. Andrej Pogorelec, dr. Tina Zorman, Andreja Zupančič, Manca Grčar

Prispevki so recenzirani (klasifikacija prispevka je označena v kazalu vsebine poleg naslova prispevka: S/strokovni; Z/znanstveni). / Papers have been reviewed. (A paper's classification is indicated next to the title of each contribution in the contents: S-Expert, Z-Scientific).

Za jezikovno pravilnost odgovarjajo avtorji. / Proper use of language is the author's responsibility.

Programski odbor / Programme Committee

dr. Marijan Pogačnik, Biotechnical Centre Naklo, Slovenia (predsednik / Chair)
prof. dr. Darko Andronikov, Univerza "Goce Delcev" Stip, Severna Makedonija
dr. Dean Ban, Institute for Agriculture and Tourism, Poreč, Hrvaška
dr. Bety Breznik, Ministrstvo za kmetijstvo, gozdarstvo in prehrano, Slovenija
dr. Gašper Gantar, Fakulteta za varstvo okolja Velenje, Slovenija
dr. Maria Guelbenzu-Gonzalo, Animal Health Ireland (AHI), Belfast Metropolitan Area, Irska
prof. dr. Žarko Ilin, University of Novi Sad, Faculty of Agriculture, Srbija
dr. sc. med. Dejan Jančič, dipl. Hem, CETIS, Podgorica, Montenegro
prof. dr. Lutvija Karić, Fakulteta za agronomijo in živilske znanosti, Sarajevo, Bosna in Hercegovina
dr. Bojan Matijević, University of Applied Sciences Karlovac, Hrvaška
dr. Drago Papler, Biotehniški center Naklo, Medpodjetniški izobraževalni center, Slovenija
dr. Iztok Podbregar, Univerza v Mariboru, Fakulteta za organizacijske vede, Slovenija
prof. dr. Hui-Ling Sung, National Taiwan Normal University, Tajvan
dr. Franc Vidic, Biotehniški center Naklo, Slovenija
dr. Dragan Žnidarčič, Biotehniški center Naklo, Slovenija

Recenzijski odbor / Review Committee

dr. Andrej Pogorelec (predsednik / Chair)

Znanstveni recenzijski odbor / Scientific Review Committee

dr. Bety Breznik, dr. Rock Finale, dr. Gašper Gantar, dr. Marko Hrast, dr. Lucija Kolar, dr. Tomaž Levstek, dr. Renata Mavri, dr. Drago Papler, dr. Marijan Pogačnik, dr. Marjan Senegačnik, dr. Sabina Šegula, dr. Liliana Vižintin, dr. Nataša Šink, dr. Natalija Špeh, dr. Lena Tajnšek, dr. Tina Zorman, dr. Dragan Žnidarčič

Strokovni recenzijski odbor / Expert Review Committee

Andreja Ahčin, Nataša Dolejši, Irena Gril, Nataša Kunstelj, Sonja Rozman, Maša Škrlep, Tatjana Šubic

Organizacijski odbor / Organizational Committee

Izvleček

Pastramajlija je zelo priljubljena tradicionalna makedonska specialiteta, ki se večinoma proizvaja in okusi po vsej državi, zlasti v severovzhodnem delu R.N. Makedonije. Namen te študije je bil raziskati glavne senzorične značilnosti (ocenjene s štirimi profili: videz, tekstura v prstih ali ustih, vonj in okus) pastramajlije, proizvedene v 5 različnih neformalnih regijah R.N. Makedonije. V 3 dneh je sedem (7) izkušenih ocenjevalcev, analiziralo senzorične parametre skupno 30 pastramajlije, po 6 vsake vrste (veleška, svetinikolska, štipska, radoviška in kratovska). Obstaja pet vrst pastramajlije, ki so posebej opredeljene s svojimi senzoričnimi lastnostmi, vključno z okusom/vonjem slane svinjine in testa, okusom slanega ovčjega sira in slane suhe ovčetine na eni strani, barvo začimb (suha rdeča paprika in črni poper), poln okus testa (svinjska mast) in njegova drobljivost ter okusi kombinacije različnih vrst svinjskega mesa s suho ovčje meso, del sira, jajc na drugi strani.

Sensory evaluation of the quality of Macedonian Pastramajlija, a traditional Macedonian speciality

Abstract

Pastramajlija is a very popular traditional Macedonian specialty, which is mostly produced and tasted all over the country, especially in the northeastern part of R.N. Macedonia. The aim of this study was to investigate the main sensory characteristics (assessed by four profiles: appearance, texture in the fingers or in the mouth, smell and taste) of Pastramajlija produced in 5 different informal regions of R.N. Macedonia. During 3 days, seven (7) experienced evaluators analyzed the sensory parameters of a total of 30 pastramajlija, 6 of each type (Veleška, Svetinikolska, Stipska, Radoviška and Kratovska). There are five types of pastramajlija that are specifically defined by their sensory characteristics, including the taste/smell of salty pork and dough, the taste of salty sheep cheese and salty dry mutton on one side, the color of the spices (dried red pepper and black pepper), the full flavor of the dough (pork fat) and its crumbliness and the flavors of the combination of different types of pork meat with dry mutton, part cheese, eggs on the other side.
