

3rd International Forum on
Chemical Engineering and Catalysis
 June 17-19, 2024 | Porto, Portugal

| Presentations - June 17, 2024 | | |
|-------------------------------|--------|---|
| London Time Zone (GMT) | | |
| 10:00 - 10:30 | K | Title: Smart CRISPR for Tissue Regeneration Yu Chen Hu, National Tsing Hua University, Taiwan |
| 10:30 - 10:55 | I | Title: Light-Driven Polymer Colloidal Motors Xibo Yan, Tianjin University, China |
| 10:55 - 11:20 | I | Title: Robotized Automated Fiber Placement And Automated Tape Laying (Afp/Atl) Processes For Composite Material Part Production Sara Srebrenkoska, Goce Delcev University, North Macedonia |
| 11:20 - 11:50 | K | Title: Hydrogen, Ammonia, CCU and beyond – Electrification of Reactor Unit Operations Blaz Likozar, National Institute of Chemistry, Slovenia |
| 11:50 - 12:10 | Poster | Title: Preparation of High Permeance Ceramic Membranes for Nanofiltration Membrane Separation Process Seung-Eun Nam, Korea Research Institute of Chemical Technology, Korea |
| 12:10 - 12:35 | I | Title: Novel Nanohybrids for Environmental Applications Sung Hee Joo, Metropolitan State University of Denver, USA |
| 12:35 - 13:10 | P | Title: Anionic Block Polymers as Next-Generation Broad-Spectrum, Self-Sterilizing Antimicrobial Surfaces Richard Spontak, North Carolina State University, USA |
| 13:10 - 13:40 | P | Title: Perspectives on publishing: Peer review, Impact, Lawrence J Berliner, University of Denver, USA |
| 13:40 - 14:20 | P | Title: Sustainability Analysis in Multi-component Separations in Chemical Process Industries Yasar Demirel, University of Nebraska Lincoln, USA |
| Closing the Conference | | |
