

Name of the project: Key Skills for Future Employability

Equipping students with soft skills is crucial so that they will be prepared when entering the workforce in the near future (when they graduate, some even before that). This eTwinning project will focus not only on soft skills (such as resilience), but also digital and linguistic awareness on a broader scale, which students will definitely need for the future.

Aims of the project

This eTwinning project aims to address the growing need for students to develop essential skills that will equip them for success in their future careers. As the modern workforce increasingly demands a combination of soft skills, digital literacy, and linguistic competence, this project is designed to give students a well-rounded foundation in these areas, preparing them to navigate the complexities of the job market. The project will emphasize digital awareness and competence. The ability to navigate the digital landscape efficiently and responsibly is a necessity for future career success. It will also explore the importance of intercultural awareness and English as a Lingua Franca. In an increasingly globalized world, being able to communicate effectively across cultures and languages is a powerful asset. This eTwinning project seeks to provide students with a comprehensive skillset that will increase their employability and readiness for the future workforce. The collaborative, cross-cultural nature of the project will put all this in practice. Ultimately, the project will contribute to creating well-rounded individuals who are ready to face the challenges and opportunities of the future with confidence.

Expected Results

Self-Confidence and Future Readiness: By completing this project, students will gain confidence in their abilities to navigate the complexities of the modern job market. They will feel more equipped to face challenges and seize opportunities in their future careers.

Members and founders

1. Aneta Naumoska, PhD – Founder

Institution: Ss. Cyril and Methodius University, Faculty of Philology "Blaze Koneski" of Skopje, North Macedonia

2. Natka Jankova Alagjovska, PhD - Co-founder

Institution: Goce Delcev University Stip,, Faculty of Philology, North Macedonia

3. Tetiana Storchova, PhD – member

Institution: Kamianets-Podilskyi Ivan Ohienko National University, Kamianets-Podilskyi, Ukraine

4. Zoriana Batrynychuk, PhD – Member

Institution: Yuriy Fedkovych Chernivtsi National University, Chernivtsi, Ukraine

Additional Information
