Esteemed colleagues and dear friends,

It is a great honour and pleasure to invite you to participate in the 16th Congress of the Croatian Society of Maxillofacial, Plastic and Reconstructive Head and Neck Surgery and the 10th Congress of the Croatian Society of Oral Surgery of the Croatian Medical Association that is to take place in Zagreb on December 6 and 7, 2024.

On this occasion, we will also celebrate the 85th anniversary of the Department of Maxillofacial and Oral Surgery of the University of Zagreb School of Medicine and School of Dental Medicine, Dubrava University Hospital, Zagreb and 70th anniversary of the Croatian Society for Maxillofacial, Plastic and Reconstructive Surgery of the Head and Neck of the Croatian Medical Association. Department was founded on December 15, 1939 as an integral part of the University of Zagreb School of Medicine as one of the first clinics for maxillofacial surgery in this part of Europe, and it has been continuously working even after its move to the Dubrava University Hospital in 1995. Since its foundation, it has been a unique medical institution in the City of Zagreb, as well as a leading specialist institution for maxillofacial and oral surgery in Croatia.

We believe that this event will be a good opportunity to acquire new knowledge, exchange experiences and meet colleagues from Croatia and abroad.
