Teaching English with AI

AN OVERVIEW OF AI INTEGRATION IN LANGUAGE EDUCATION

ASST. PROF. DR. SIMONA SERAFIMOVSKA

ASSOC. PROF. DR. NATKA J. ALAGJOZOVSKA

DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE

FACULTY OF PHILOLOGY, GOCE DELCEV UNIVERSITY, STIP

NORTH MACEDONIA

Introduction

- Artificial Intelligence (AI) is transforming English language teaching by providing personalized, efficient, and scalable learning tools.

- This presentation explores key AI applications in English education and discusses their benefits and challenges.

AI Tools in Language Learning

- ▶ • Intelligent Tutoring Systems
- ▶ • Chatbots for conversation practice
- ▶ • Automated writing and grammar feedback
- ▶ • Adaptive language learning platforms

Benefits of Using AI

- • Personalized learning experiences

- • Instant, data-driven feedback

- • Enhanced engagement through interactivity

- • Supports differentiated instruction

Challenges and Considerations

- ▶ • Data privacy and ethical concerns

- ▶ • Need for teacher training in AI tools

- ▶ • Risk of over-reliance on technology

- ▶ • Ensuring equity in access to digital resources

Conclusion

▶ AI presents transformative opportunities for English language education.

▶ Successful integration requires thoughtful implementation to complement, not replace, human teaching.

Thank you for your attention!!!
