ПОРАКА ЗА ДОБРЕДОЈДЕ

Почитувани,

Во име на **Македонското здружение по урологија (МАУ) и Балканското здружение по урологија (БАУ)**, ни претставува голема чест да ви посакаме добредојде на **5-тиот конгрес на МАУ и 6-тиот конгрес на БАУ**. Овој значаен настан се одржува **од 17 до 19 октомври 2025 година**, во хотел Дрим-Струга, на брегот на Охридското езеро.

Мисијата на конгресот е да ги обедини колегите од Македонија, нашите балкански соседи, европските и меѓународните колеги. Современата урологија доживува неверојатен теоретски и технолошки развој и веруваме дека со заеднички напори ќе постигнеме плодна размена на искуства и знаења. Оваа размена, не само што ќе го збогати нашето лично разбирање, туку и ќе го унапреди полето на современата урологија.

Нашиот конгрес ќе се фокусира на клучни теми како што се: карцином на простатата, карцином на мочен меур, трансплантација на бубрези.

Дополнително, ќе има и разни други интересни и релевантни теми од урологијата за дискусија и истражување.

Убедени сме дека вашето присуство и активно учество ќе придонесе за поголем успех на овој настан и заедно можеме да го направиме овој конгрес извонредна платформа за учење, соработка и напредок во урологијата.

Со почит,

Проф. д-р Скендер Саиди
Претседател на Македонското
здружение по урологија

Проф. д-р Оливер Станков
Претседател на Балканското
здружение по урологија

WELCOME ADDRESS

Respectable,

On behalf of the **Macedonian Association of Urology (MAU) and the Balkan Association of Urology (BAU)**, we have the honor to welcome you to the **5th Congress of MAU and the 6th Congress of BAU**, which will be held from **17 to 19 October 2025**, in the town of Struga on the shores of Lake Ohrid, at Hotel Drim.

The mission of the Congress is to unite colleagues from North Macedonia, our Balkan neighbors, European and international colleagues. Contemporary urology experiences amazing development both theoretically and technologically. We hope that we will have a fruitful exchange of experiences and knowledge, with which we will contribute to the growth of our personal knowledge and also to a contemporary urology.

The key topics of the congress will be: cancer of the prostate and urinary bladder, and kidney transplantation. In addition, there will be other various interesting and relevant urology topics for discussion and research.

We are convinced that your presence and active participation will contribute to the greater success of this event and together we can make this congress an outstanding platform for learning, collaboration and progress in urology.

With respect,

Prof. d-r Skender Saidi

President of the Macedonian
Association of Urology

Prof. d-r Oliver Stankov

President of the Balkan
Association of Urology
