

FROM POLLUTION TO PROSECUTION

Olga Koshevaliska

Short recap from the previous online lecture

- Illegal waste dumping
- Water & soil contamination
- Air pollution
- Illegal construction / spatial crime
- Corporate environmental crime
- Name the other criminal act

✓ **WHO IS INVOLVED IN A REAL CASE?**

From pollution to prosecution

Inspectors

Engineers

Doctors / public health experts

Environmental agencies

Prosecutors

Attorneys

Courts

- Criminal trial

„chain of responsibility“

Chain of Responsibility

From Pollution to Prosecution

WHY ENVIRONMENTAL CRIME IS HARD TO INVESTIGATE

Evidence

- No immediate victim
- Damage appears years later
- Requires expert knowledge
- Multiple responsible actors
- Evidence is complex

ROLE OF CRIMINAL JUSTICE

When does administrative law fail?

When does criminal law intervene?

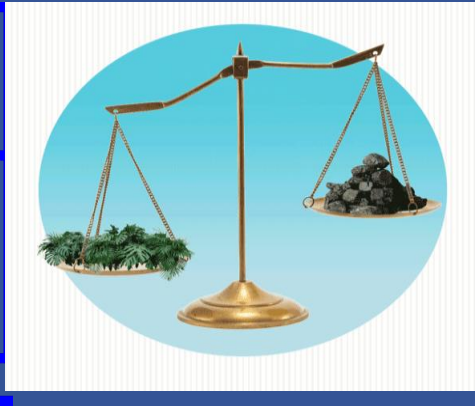

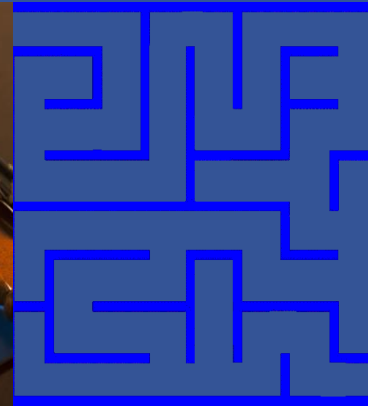

Investigation

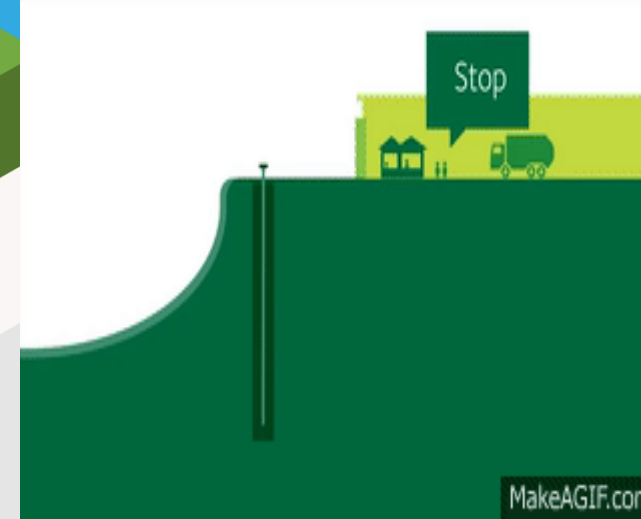

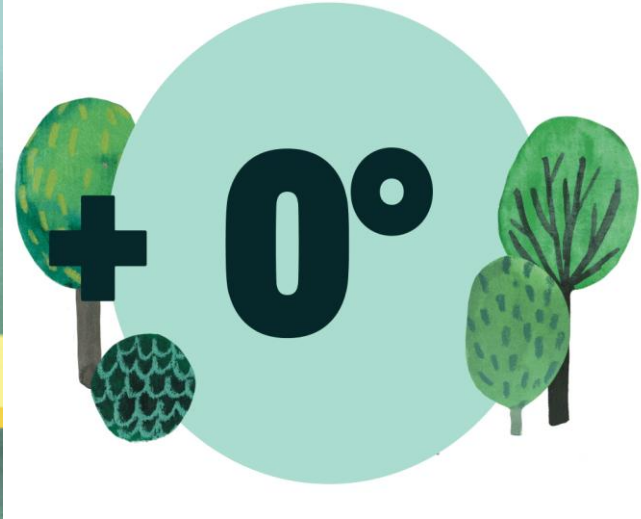

Evidence

Prosecution

Main trial

Sanctions

Expert reports

Satellite images / monitoring

Legal qualification

- FROM THEORY TO PRACTICE
- Now you become the investigation team
- Real-life inspired case
- Mixed groups
- Different professional roles
- One goal: build a criminal case

Group Output (for all cases)

- Identify the environmental crime
- List key evidence
- Assess criminal liability
- Propose investigative and prosecutorial steps
- Present your conclusions (5 minutes)
