ПОРАКА ЗА ДОБРЕДОЈДЕ

Почитувани колеги,

Во име на Македонското здружение по кардиологија и организациониот одбор, со големо задоволство Ви посакуваме добредојде на **Четвртиот Интернационален Симпозиум – Тромбоза и крвни садови (4th International Symposium on Thrombosis & Vessels)**, кој ќе се одржи од 15ти до 16ти Мај 2026 во во хотелот DoubleThree by Hilton во Скопје, РС Македонија.

Овој симпозиум е наменет за сите млади доктори, интернисти, специјализанти, кардиолози, специјалисти по васкуларна медицина, хематологија и трансфузиона медицина, дерматологија. На истиот се очекува учество на предавачи од Европа и регионот.

Тромбозата и нејзините компликации се наша секојдневна реалност и голем терапевски предизвик. Симпозиумот има за цел да опфати повеќе аспекти на артерискиот и венски тромбемболизам, тромботичните компликации, артериската болест, третман на канцер асоцирана тромбоза, пропратени со искуства од реалната пракса, нивна превенција, дијагностички предизвици и современо лекување. Засебен осврт ќе биде посветен на ризик факторите и комобриднетите кои доведуваат до тромбоза. Посебно место ќе имаат новите препораки за третман на белодробната тромбемболија.

Ви благодариме за заедничката заложба за придвижување на границите на знаењето во васкуларното здравје.

Добредојдовте на симпозиумот.

Виш Науч. Сор. д-р Ирена Митевска, FESC

Претседател на Македонското здружение по кардиологија

Проф. д-р Маријан Бошевски, FESC

Претседател на Симпозиумот

WELCOME ADDRESS

Dear Colleagues,

On behalf of the National Society of Cardiology of North Macedonia and Organizing committee, it is our great pleasure and privilege to welcome you at the **Fourth International Symposium on Thrombosis & Vessels, which will take place on May 15–16, 2026, at the DoubleTree by Hilton Hotel in Skopje, North Macedonia.**

The symposium has become a traditional event, devoted for all young doctors, internists, cardiology residents, cardiologists, vascular medicine specialists, hematologists and transfusion medicine specialists, as well as dermatologists. The symposium will be joined by international lecturers from Europe and region.

Thrombosis and its complications are our everyday reality and big treatment challenge. The symposium will cover topics including all aspects of venous and arterial thromboembolism, thrombotic complications, arterial disease, management of cancer-associated thrombosis and real-world experiences, as well as prevention, diagnosis and contemporary thrombosis treatment. Special aspects of risk factors and comorbidities leading to thrombosis will be covered. A dedicated session will also address the latest guidelines on the treatment of pulmonary embolism.

Thank you for joining us in our efforts to push the boundaries of knowledge in vascular health. We wish you a productive, engaging, and memorable experience.

Warm regards,

Associate Professor Irena Mitevaska, MD, PhD, FESC

President of National Society of Cardiology of N. Macedonia

Prof. Marijan Bosevski, MD, PhD, FESC

President of Symposium

ОДБОРИ / COMMITTEES

Претседател на Симпозиумот

Проф. д-р Маријан Бошевски

Научен одбор

Проф. д-р Маријан Бошевски,
претседател

DAY 1: 15 MAY, FRIDAY

13:00 – 19:00 Registration

UNCOMMON CV CASES - ORAL MODERATED POSTERS

Moderators: L.Poposka, S.Kaeva

Time 2+1'	Lecture	Lecturer
13:30-15:00		
13:30-15:00	When Inflammation meets Thrombosis: Eosinophilic myocarditis	S. Jovchevska
13:30-13:33	Acute Brachial Artery Thrombosis as the First Manifestation of Paroxysmal Atrial Fibrillation	L. Crvenkova
13:33-13:36	Recurrent PE in a Pt with Combined Genetic Thrombophilia	M. Geceska
13:36-13:39	Concurrent Ulcerative Proctitis and Polymyositis with Upper-Limb Deep Vein Thrombosis	A. Fileva Mladenova
13:39-13:42	Recurrent Venous Thromboembolism and Intracardiac Thrombi in a Young Patient with Primary Antiphospholipid Syndrome	B. Basbug
13:42-13:45	Acute severe mitral regurgitation due to rupture of the chordae tendineae presenting with atrial fibrillation and TIA	N. Taneska
13:45-13:48	Chronic Biventricular Intracardiac Masses in Chemotherapy-Related Heart Failure: Thrombus or Fibrotic Remodeling	L. Kostovski
13:48-13:51	Deep Vein Thrombosis in Early Pregnancy	D. Jovanovski
13:51-13:54	Time to Disarm the Left Ventricular Thrombus	A. Gjorgievski
13:54-13:57	Deep Vein Thrombosis in a Young Female Associated with Oral Contraceptive Use	A. Bakiu
13:57-14:00	Intramuscular Hematoma Mimicking Deep Vein Thrombosis in a Patient with Newly diagnosed Atrial Fibrillation	T. Konjanovski
14:00-14:03	Not Every Pulmonary Embolism Is Acute: Unmasking CTEPH	V. Zhaku
14:03-14:06	Thrombosis ramus inferior vena centralis retinae	I. Bede
14:06-14:09	Suspected Renal Malignancy with Portal Vein Thrombosis: A Diagnostic Challenge	B. Koleva
14:09-14:12	Superior Vena Cava Syndrome Associated with Thyroid Cancer	I. Mistic
14:12-14:15	Giant popliteal aneurysm	T. Angjuseva
14:15-14:18	Venous thromboembolism as first manifestation of lung cancer	N. Skrcevska
14:18-14:21	Venous thromboembolism in pregnancy	A. Nikoloska-Angeleska
14:21-14:24	When Six Months Is Enough: A Case of Early Drug Eluted Stent Failure	N. Manev
14:24-14:27	Inflammation driven thrombosis : recurrent thrombotic events im a young patient with ankylosing spondylitis	A. Fazjliu
14:27-14:30	Venous Thromboembolism with Pulmonary Embolism and Comorbidities	S. Jordanova
14:30-14:23	Duration of Postoperative Atrial Fibrillation as a Marker of Thromboembolic Risk After Cardiac Surgery	A.M. Taseva
14:33-14:36	From physics to chemistry: the broad spectrum of clinical scenarios in cancer-associated thrombosis	A. Dervisi
14:36-14:39	Axillary Vein Thrombosis Following Pacemaker Implantation	I. Zdravkovski
14:39-14:42	DVT of upper extremity after cardiac pm implantation	S. Todorovski
14:42-14:45	Complex case of bilateral DVT in young patient with inherited thrombophilia	M. Razmoska
14:45-14:48	Myocardial infarction in a young pt with genetic polymorphism	Xh. Iljazi-Memeti
14:48-14:51	Persistent left ventricular thrombus in patient with gastric non-Hodgkin lymphoma	I. Kotlar
14:51-14:54	PE after gynecological surgery	M. Trajcevska
	DISCUSSION	

SESSION 1: JOINT SESSION WITH DERMATOLOGY SOCIETY: FLEBOLOGY LESSONS*Moderators: E. Lazarova, I. Dohceva*

Time 10'	Lecture	Lecturer
15:00-15:15	Cutaneous Clues of Vascular Disease: When the Skin Reveals Hidden Thrombosis and Circulatory Disorders	I. Dohceva
15:15-15:30	Sexually Transmitted Infections as triggers of endothelial dysfunction: a dermato-vascular perspective for thrombosis	V. Simeonovski
15:30-15:45	One-Year Outcomes of Non-Thermal Endovascular Ablation with Cyanoacrylate in Patients with Great and Small Saphenous Vein Insufficiency	O. Kalpak
15:45-16:00	DISCUSSION	
16:00-16:45	SATELITE SIMPOSIUM: 1 - 45' Clinical benefits of Ozempic® in patients with high cardiovascular risk and diabetes type 2 Marjan Boshev Mario Jovanoski	Novo Nordisk
16:45-17:00	COFFEE BREAK	

SESSION 2 – CRITICAL LIMB ISCHEMIA (CLI)*Moderators: I. Vasilev, H. Taravari*

Time 15'	Lecture	Lecturer
17:00-17:15	Diagnosis of PAD/critical limb ischemia	Christian Heiss, UK ESC WG on PAD
17:15-17:25	Case report 1 – Multimodal approach to PAD: IVL, DCB, IVUS	H. Taravari
17:25-17:35	Case report 2 – Subacute thrombosis after treatment of femoro-popliteal CTO in a pt with CLI	S. Mitreski
17:35-17:45	Case report 3 – Endovascular treatment of tibio-peroneal trunk occlusion in CLI	D. Manchevski
17:45-17:55	DISCUSSION	
18:00-18:30	SATELITE SIMPOSIUM: 2 - 30' Kerendia at the Center of Cardio-Renal-Metabolic Care	Bayer

SESSION 3: CAROTIDVERTEBRAL AND AORTIC DISEASE*Moderators: S. Kedev, M. Bosevski*

Time 15'	Lecture	Lecturer
18:30-18:45	Ultrasound in Carotid and Aortic disease	D. Petkovska
18:45-18:55	Vertebral artery stenting – case report	I. Vasilev
18:55-19:05	Frozen Elephant Trunk (FET) technique for Aortic Dissection	M. Sokarovski
19:05-19:15	DISCUSSION	

OPENING CEREMONY

19:30-20:00	OPENING SPEECH	
20:00-20:30	Plenary lecture. Toward new Guidelines in PE	Benhood Bigdeli, USA ACC /AHA

20:30 Welcome reception

DAY 2: 16 MAY 2026, SATURDAY

08:00 – 17:00 Registration

SESSION 4: CARCINOMA ASSOCIATED THROMBOSIS (CAT): JOINT SESSION WITH HEMATO-ONCOLOGY SOCIETY*Moderators: S.Stavrik, I. Mitevaska, M. Bosevski*

Time 15'	Lecture	Lecturer
08:30-08:45	Cancer Associated Thrombosis – New Challenges	E. Lazarova
08:45-09:00	Case report of hematological pt with malignant lymphoproliferative disease	L. Chadievski
09:00-09:15	DVT as early sign of Non-Hodkin Lymphoma	O. Georgieva Janev
09:15-09:30	DISCUSSION	

SESSION 5: PULMONARY EMBOLISM: CLINICAL CHALLENGES*Moderators: B. Bigdeli, M. Bosevski, S. Obradovic*

Time 15'	Lecture	Lecturer
09:30-09:45	Hidden pitfalls and missed opportunities in high-risk PE	I. Mitevaska
09:45-10:00	Thrombi in pulmonary trunk and arteries	M. Jovanovski
10:00-10:15	Thrombolysis in PE- Finding the Right Time to Act	I. Kuzmanoski
10:15-10:30	DISCUSSION	
10:30-11:30	SATELITE SIMPOSIUM 3 - 60' WINREVAIR® (sotatercept): The First and Only Activin Signaling Inhibitor Approved for the Treatment of PAH in Adults Prof. Dr. Elizabeta Srbinovska Prof. Dr. Arsen Ristic	ALKALOID KONS - MSD

11:30-11:45	COFFEE BREAK
-------------	---------------------

PLENARY LECTURE – PULMONARY HYPERTENSION

11:45-12:15	CTEPH - balloon angioplasty and endarterectomy	S. Obradovic
-------------	--	--------------

SESSION 6: ALL SCENARIOS OF THROMBOSIS IN CRITICAL ILL PATIENTS*Moderators: I.Mitevaska, E. Shehu*

Time 10'	Lecture	Lecturer
12:15-12:25	Dual Thrombosis in a young patient with New Onset Heart Failure: Left Ventricular Thrombus and Pulmonary Embolism	D. Petkovski
12:25-12:35	Biomarkers in Pulmonary Embolism	B. Pocesta
12:35-12:45	Pulmonary Embolism as first marker of new Carcinoma- case series	E. Vrjanko
12:45-12:55	DISCUSSION	

13:00-13:45	SATELITE SIMPOSIUM: 4 - 45' The Continuum of Arterial and Venous Thrombosis: Two faces of one disease	ALKALOID
-------------	--	-----------------

13:45-14:45	LUNCH BREAK / Stand exhibition
-------------	---------------------------------------

ULTRASOUND SCHOOL*Moderators: E. Srbinovska, M. Bosevski*

Time 25'	Lecture	Lecturer
14:45-15:10	Echocardiography in Pulmonary Embolism	E. Srbinovska
15:10-15:35	Ultrasound in Deep Venous Thrombosis	M. Bosevski
15:35-15:45	DISCUSSION	

SESSION 7—SPECIAL VASCULAR CONDITIONS*Moderators: S. Paljoskovska, H. Pejkov*

Time 10'	Lecture	Lecturer
15:45-15:55	Surgical correction of aneurisms of AVF	N. Gramatikovski
15:55-16:05	Cardiac reasons of Systemic embolism	V. Andova
16:05-16:15	When the arms steal from the brain	I. Bojovski
16:15-16:25	Paget Syndrome	I. Gigovska
16:25-16:35	Vena cava: Ultrasound measurements for hemodynamics	M. Lazarov
16:35-16:45	Carotid artery dissection and hypertensive crisis	G. Donovska
16:45-16:55	Deep vein thrombosis Complicated by pulmonary embolism in a patients with Combined Inherited Thrombophilia	S. Paljoskovska
16:55-17:10	DISCUSSION
